

The 2013 SLK-Class

Mercedes-Benz
The best or nothing.

SLK 350.

Mercedes-Benz and the classic roadster have been irrevocably linked for a century. So who better to refine this much-heralded class of motorcar? The SLK-Class keeps the spirit and passion of the roadster alive with a sense of refinement like no other. Power, precision, and presence combine to form a vehicle that is exhilarating to look at, but even more so to drive. So much more than a sporty convertible, the SLK-Class keeps with Mercedes-Benz's reputation for setting the standard in automotive design. And with such an icon in your garage, you'll enjoy quite a reputation yourself.

Where form follows function, and your heart.

One look and its power is loud and clear: a long hood with short overhangs, the visual dynamics of the SLK-Class will take your eyes all the way back. And one drive is enough to see that this roadster delivers what its design promises. Its long, contoured hood descends toward the nose while the wide, low bumper with large air inlets extends out to the sides of the vehicle, creating a broad, dynamic appearance. Side air vents mounted in the fender pay homage to the classic 300 SL roadster of the 1950s, while integrated tailpipes fit nicely below a clean rear diffuser. The SLK-Class meets the most discerning requirements and is crafted with the utmost attention to detail.

SLK 350.

SLK 350.

The world is yours when you control the sky.

Imagine controlling light and shadow. The SLK-Class with optional MAGIC SKY CONTROL¹ turns fantasy into reality. One touch lets sunlight in through a transparent glass roof, or darkens it within seconds to provide a cool, transparent shade. MAGIC SKY CONTROL uses electric impulses to rearrange tiny crystals on a wafer-thin film sitting between two layers of the Panoramic vario-roof², effectively blocking out the desired amount of incoming sunlight. Depending on the intensity of sun, virtually 100% of the light can be let in – or up to 75% can be blocked out – all at the touch of a button. Even when the roof is in its transparent state, the driver remains comfortable and protected from the summer heat. Unfortunately, the only thing the Panoramic vario-roof with MAGIC SKY CONTROL can't do is make the sun shine on a cloudy day.

¹Available as a standalone option on the SLK 350 and SLK 55 AMG. Not available on the SLK 250. ²Available as part of an option package on the SLK 350 and SLK 55 AMG. Not available on the SLK 250.

Don't go with the flow. Make it go with you.

Whatever the weather condition, the SLK-Class has you covered. The innovative AIRGUIDE¹ option shields the driver and passenger from wind, redirecting air turbulence around the cockpit while preventing a draft effect. Meanwhile, the AIRSCARF² option provides warm airflow to the upper body and head, keeping the occupants nice and warm on those colder days and extending the open-top driving season well into late autumn.

¹Available as part of an option package on the SLK 350 and SLK 55 AMG. Not available on the SLK 250. ²Available as part of an option package on all models.

SLK 350.

SLK 250.

Have a seat. You're about to be overwhelmed.

Step inside the SLK-Class and you'll know you've arrived. Luxurious and refined, the SLK-Class stays close to its roots. Open the door and gentle red ambient lighting greets you – a true sight to behold. Rich details – such as available Nappa leather upholstery¹ – and beautiful trim selections with standard Aluminium² and optional Dark Ash³ and Burl walnut wood³ finishes create a stylish and comfortable cabin that feels like it has been designed around you.

Ambient lighting; a standard feature on all models.

¹Standard on the SLK 55 AMG. Available as a standalone option on the SLK 350. Not available on the SLK 250. ²Standard on all models. ³Available as a standalone option on the SLK 250 and SLK 350. Not available on the SLK 55 AMG.

SLK 350 Interior.

Let the performance begin.

A world of acoustic options is at your fingertips in the SLK-Class. The 500-watt harman/kardon® LOGIC7® surround sound system¹ gives you unparalleled sound quality from every seat with 10 precisely placed speakers. SiriusXM is optional and includes a 6 month complimentary subscription² featuring over 120 channels of the best in audio entertainment. Get 100% commercial-free music from every genre, plus sports, news, talk and comedy – all with crystal-clear, coast-to-coast coverage.

The centre console of the SLK-Class features the latest-generation COMAND APS³ multimedia control and display system that combines audio, Bluetooth and a hard-drive based GPS navigation system – all of which can be controlled through the LINGUATRONIC voice operated control system. Plus, an intelligently designed Media interface⁴ supports more media devices than ever before, yet remains as user-friendly as always. Being entertained and well connected on your travels will never be a worry in the SLK-Class – though deciding what to do first might be.

¹Available as part of an option package on all models. ²Complimentary service is comprised of a SIRIUS package. Monthly subscription required for service thereafter. © 2012 Sirius XM Canada Inc. Available as part of an option package on the SLK 55 AMG. ⁴Standard on the SLK 350 and SLK 55 AMG. Available as part of an option package on the SLK 250.

The harman/kardon® LOGIC7® surround sound system ensures a listening experience of the highest caliber.

COMAND APS multimedia control and display system.

SLK 350 Interior.

The heart beats faster.

Fun at the wheel and environmental responsibility can live together in harmony with efficient engine technologies designed to impress, while reducing fuel consumption at the same time.

Increased adrenaline. Reduced emissions.

Performance meets fuel economy. Luxury meets responsibility. At Mercedes-Benz, we don't believe in compromise. Our BlueEFFICIENCY philosophy ensures that environmental responsibility plays a major role in all we do. We do this at all levels of vehicle development and production – and therefore take a comprehensive approach to all the potential factors relating to drive systems, lightweight construction, energy management and fuels. This all-round approach also includes aspects such as the total harmful emissions, choice of materials, development, production, use and servicing, right up to eventual vehicle recycling and disposal. The world's awareness is increasing as emissions, fuel consumption and fuel prices become topics that affect us all. For Mercedes-Benz it is both a corporate goal and an obligation to shape the future of mobility in a responsible and sustainable manner.

A power plant on 4 wheels.

The SLK 250 is powered by a 1.8 L I4 direct-injection turbo engine with 201 horsepower and 229 lb-ft of torque. With exceptional efficiency in fuel economy, the SLK 250 accelerates to 100km/h in just 6.6 seconds.

Powered by a 3.5 L direct injection V6 engine, the SLK 350 offers plenty of performance. A marvel of Mercedes-Benz engineering, its 302 horsepower and 273 lb-ft of torque will raise the speedometer from 0 – 100km/h in just 5.6 seconds. When driving the SLK-Class, the only thing faster would be the beating of your heart.

Well geared for the road.

The SLK 250 and SLK 350 are equipped with the 7G-TRONIC PLUS 7-speed automatic transmission¹. This wide range of closely spaced gears gives the driver the ideal gear for virtually any driving situation, and makes for smoother cruising, more responsive acceleration and even improved fuel efficiency.

The SLK-Class engines combine comfort and fun at the wheel with sustainability.

¹6-speed manual transmission on the SLK 250 manual transmission.

The 7G-TRONIC PLUS: one of over 18 million automatic transmissions produced in a period spanning more than 50 years.

Precision driver meets precision machine.

The precision of the SLK-Class is further sharpened by a number of sophisticated technologies with the standard Dynamic Handling Package¹. A button marked ‘Sport’ launches several systems into action. The Adaptive Damping System stiffens the suspension and affords the SLK-Class even more handling agility. The Direct-Steer system increases the weight of the steering and reduces the number of turns from lock to lock – ensuring razor-sharp handling on tight bends and improved straight-line stability at high speeds. Finally, the Torque Vectoring Brake system significantly reduces understeer, ensuring precise cornering and outstanding driving dynamics. All told, the SLK-Class Dynamic Handling Package brings you closer to the road than ever.

What comes between you and the road.

The SLK-Class wheels were designed with the same philosophy as the rest of this inspired vehicle. Style, substance and safety are the cornerstones of Mercedes-Benz, and none of these attributes were spared while developing these impressive wheels.

¹Standard on the SLK 350. Available as part of an option package on the SLK 250. Not available on the SLK 55 AMG. ²Standard on the SLK 250. Not available on all other models. ³Standard on the SLK 350. Not available on all other models. ⁴Standard on the SLK 55 AMG. 18" AMG multi-spoke wheels⁶.

18" AMG 5-spoke wheels (Code 790)⁴.

The Dynamic Handling Package with adaptive adjustable damping: facilitates the ideal blend of sportiness and comfort.

Safety always comes standard.

Mercedes-Benz always pursues a vision of accident-free driving. Numerous measures can support the driver in critical situations, helping to prevent dangerous situations.

ADAPTIVE BRAKE

With the anti-lock braking system (ABS) and the Electronic Stability Program (ESP®) the ADAPTIVE BRAKE system helps drivers master critical braking manoeuvres.¹ By wiping moisture away while driving in wet conditions, this technology allows the brakes to react with more accuracy. Also, ADAPTIVE BRAKE prevents unintentional roll back when starting on an incline. Pressing the brake a second time activates the HOLD function, keeping the vehicle securely in place.

DISTRONIC PLUS with PRE-SAFE® Brake^{1,2}

DISTRONIC PLUS is a radar-based proximity cruise control system which accelerates and decelerates the SLK-Class autonomously to maintain a pre-set distance from vehicles ahead - ideal for stop-and-go traffic. Should the vehicle ahead slow to a standstill, DISTRONIC PLUS will bring the vehicle to a complete stop. With a simple tap of the accelerator pedal, DISTRONIC PLUS will once more resume the driver's pre-set speed.

Leveraging DISTRONIC PLUS, PRE-SAFE® Brake is a sophisticated active safety system capable of preventing rear-end collisions. This anticipatory system uses the DISTRONIC PLUS radar technology to continuously monitor the space in front of the vehicle. If it determines that a collision is possible, and the driver is not taking steps to slow the vehicle and avoid the accident, PRE-SAFE® Brake will firstly warn the driver visibly and audibly. If the driver has still not reacted, PRE-SAFE® Brake will trigger partial braking to slow the vehicle down. Finally, if PRE-SAFE® Brake determines that a collision is imminent, it will then engage full braking to mitigate damage - acting as a virtual crumple zone. If the driver does react to these warnings, however, the SLK-Class' advanced BRAKE ASSIST PLUS system will boost brake pressure to ensure maximum braking power is available to stop the vehicle and avoid an accident.

Standard Airbags

Since 1992, airbags have been a standard safety feature on all Mercedes-Benz passenger cars. The SLK-Class continues this tradition with an impressive total of eight standard-fit airbags – two front airbags which are deployed in two stages depending on the severity of the accident, two side airbags in the seat backrests, two head airbags positioned in the door panels and two knee airbags, providing substantial protection should a collision occur³. Working in conjunction with the seatbelts, the airbags can significantly reduce the risk of injury to the driver and passenger in the event of a collision.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. ²Available as part of an option package on the SLK 350. Not available on the SLK 250 and SLK 55 AMG. ³WARNING: The forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. See Operator's Manual for additional warnings and information on airbags, seatbelts and child seats.

Active Bi-Xenon headlamps² provide drivers with optimum visibility in all driving conditions.

DISTRONIC PLUS with proximity control supports drivers by automatically keeping their vehicle at a safe distance from the vehicle in front.

Head airbags reduce the risk of injury by providing additional support in the event of a collision^{1,3}.

Converts gasoline to adrenaline.

The SLK 55 AMG is the most powerful SLK of all time. Resting beneath the aggressive hood and athletic design is an AMG 5.5 L naturally aspirated V8 engine with cylinder shut-off which combines the ultimate in performance with the lowest possible fuel consumption. A peak engine output of 415 horsepower and maximum 398 lb-ft of torque mean the SLK 55 AMG outperforms all of its direct competitors.

The innovative AMG Cylinder Management system combines powerful eight-cylinder performance with the economical fuel consumption of a four-cylinder by switching off 4 cylinders under partial load. Also, the ECO Stop/Start function automatically turns off the engine when the vehicle comes to a complete stop for more than 2 seconds – turning it on again once the gas pedal is pressed.

Fuel becomes pure adrenaline thanks to the AMG SPEEDSHIFT PLUS 7G-TRONIC transmission – accelerating from 0 to 100 km/h in just 4.6 seconds. It's no mystery why the SLK 55 AMG presents a quantum leap in all areas of design, engineering, and driving pleasure.

The SLK 55 AMG commands attention with an athletic and powerful rear end featuring dual twin exhaust pipes.

18" AMG 5-spoke wheels are featured standard on the SLK 55 AMG.

5.5 L naturally aspirated V8 engine provides ample power for high performance driving.

The SLK 55 AMG.

An expression of character.

The finishing touches can mean the difference between a work of art and a true masterpiece. Whichever colour you opt for, you’ve made the right choice. Because with a selection of both solid and metallic paint finishes benefitting from an extra scratch-resistant clear coat, your SLK-Class’ colour is less susceptible not only to scratches, but also to sunlight, temperature variations, dust and soot.

Individuality at its most alluring.

Transform your SLK-Class into a bespoke masterpiece with exceptional finishing touches by *designo*. The *designo* program offers you a myriad of personalization options to make your new vehicle truly unique, creating a character as distinguished as your own.

The *designo* range also includes a selection of additional features that complement your Mercedes-Benz. A variety of model-specific options are available, including DINAMICA and full leather headliners and wood/leather steering wheels – the possibilities are endless. Speak to your dealer, or browse the whole range at your convenience using our online configurator at: [mercedes-benz.ca/designo](https://www.mercedes-benz.ca/designo)

The SLK 350 interior in *designo* Platinum White Nappa Leather.

SLK 350 in a *designo* MAGNO Cashmere White Matte finish.

A unique *designo* finish provides a distinguished look and offers exceptional character.

The finishing touches.

Added nuances and unique refinements are just what will make your SLK-Class a distinctively richer automobile. Mercedes-Benz accessories are a cut above, having been designed and built to the highest standards for concept, engineering, quality, form and function.

Shallow Trunk Tray

Made from impact-resistant, non-split polyethylene, this odourless tray prevents loads from sliding around and protects the carpet from spills and dirt.

18" Twin-spoke Alloy Wheels

Distinct 5 twin-spoke palladium silver wheels with an easy to clean, high-sheen paint finish add an extra edge to your vehicle.

Chrome Hood Grille Inserts

Simple and quick to install, these visual upgrades add sportiness while completing the Chrome accent of the SLK-Class.

Rear Trunk Spoiler

Tailored to the contours of the SLK-Class, the athletic spoiler design reduces lift, thereby significantly reinforcing the vehicle's aerodynamics.

A passion for things done right.

A passion for craftsmanship and attention to detail – it's what you'd expect from Mercedes-Benz. It drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz, and to provide you with an ownership experience that includes the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear period

The following parts listed are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first. Brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz experts who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional

Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

Mercedes-Benz is virtually yours.

Visit **mercedes-benz.ca** and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Access information about any of our vehicles, including financing and leasing options, upcoming models, and configure your dream Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is your SLK-Class so convincing as on the road. It's only there that you can fully experience the superior handling and power that makes this car so special. Feel the engine move you forward, and watch your heart rate rise with the speedometer. That unique feeling in your stomach cannot be put down on paper. That's why we would like to invite you in for a test drive at your local Mercedes-Benz dealer. Reserve your appointment today, or visit **mercedes-benz.ca**.
