

The 2014 CLS

Mercedes-Benz

Sensuality and sense have never been closer.

Boasting advanced design and technology refinements, the 2014 CLS redefines the original and iconic four-door coupe, while staying true to what a Mercedes-Benz must be: passionate, innovative and powerful. Prepare to discover an unmatched level of sport-coupe excitement.

It's an irresistible character – even at a standstill, the 2014 CLS has the power to blow you away. This four-door coupe combines timeless elegance with an expressive design like no other car before it. From its awe-inspiring sporty front grille emblazoned with the iconic three-pointed star, to its dynamic side contours that lead your eyes all the way back to the powerful, muscular rear section – extraordinary is the norm. And the dynamic AMG styling further enhances its chiselled form with optional 19" AMG 5-spoke wheels and an aggressive single-louvre grille. It's a perfect blend of power and beauty.

True beauty comes from within.

There's no shame in going weak at the knees – true beauty will always have that effect. Much like the interior design of the CLS; from the moment you open the door, the ambient interior lighting will seduce visually. The impressive union of high-quality wood, fine leather and wood trim surfaces satisfies even the most exacting design and comfort requirements.

Another hallmark of the four-door coupe is its ample legroom. Visually stunning and extremely comfortable – it makes for an interior cabin you'll consider your home away from home.

Let the performance begin.

A world of acoustic options is at your fingertips in the CLS. The available 610-watt harman/kardon® LOGIC7® surround sound system¹ gives you unparalleled sound quality from every seat with 14 precisely placed speakers. SiriusXM is standard and includes a 6 month complimentary subscription² featuring over a 120 channels of the best in audio entertainment. Get 100% commercial-free music from every genre, plus sports, news, talk and comedy – all with crystal-clear, coast-to-coast coverage.

The CLS features the latest-generation COMAND APS multimedia control and display system that combines audio, Bluetooth and a hard-drive based GPS navigation system – all of which can be controlled through the LINGUATRONIC voice operated control system. Plus, an intelligently designed interface supports more media devices than ever before, yet remains as user-friendly as always. Being entertained on your travels will never be a worry in the CLS – though deciding what to do first might be.

¹Available as part of an option package on the CLS 550 4MATIC™. Standard on the CLS 63 AMG 4MATIC™ and CLS 63 AMG S-Model 4MATIC™. ²Complimentary service is comprised of a SIRIUS package. Monthly subscription required for service thereafter. © 2013 Sirius XM Canada Inc. "SiriusXM", the SiriusXM logo, channel names and logos are trademarks of Sirius XM Radio Inc. and are used under licence.

What comes between you and the road.

What kind of ride would you like your CLS to have – one that maximizes its athletic potential or one that puts the emphasis on comfort? With the AIRMATIC air suspension system¹, you can make your choice at the touch of a button. Instead of conventional coil springs, an electronic system adjusts the setting of the air springs by using compressed air to create a firmer or softer set-up to suit the given situation. If the sensors register sporty driving, the suspension automatically becomes firmer. The AIRMATIC air suspension system also includes the Adaptive Damping System (ADS) allowing the driver to select between comfort, sport and automatic damping.

¹Standard on the CLS 550 4MATIC™. Not available on the CLS 63 AMG 4MATIC™ or the CLS 63 AMG S-Model 4MATIC™. ²Standard on CLS 550 4MATIC™. ³Optional on CLS 550 4MATIC™. ⁴Standard on CLS 63 AMG 4MATIC™. ⁵Optional on CLS 63 AMG 4MATIC™ & CLS 63 AMG S-Model 4MATIC™. ⁶Standard on CLS 63 AMG S-Model 4MATIC™.

As always, safety comes standard.

The integral safety concept from Mercedes-Benz is the guiding force behind a series of linked technologies that come into play in the critical moments before, during and after an accident.

The Electronic Stability Program (ESP®) continuously monitors your vehicle's motion to help keep it going in your intended direction. If ESP® detects wheel spin, severe understeer (plowing) or oversteer (fishtailing), the system can brake individual wheels and reduce engine power to help bring the vehicle back under control.¹ The CLS is also equipped with the ADAPTIVE BRAKE system to dry the brake pads off periodically when the windshield wipers are on.

Brake Assist (BAS) automatically boosts braking power, applying the brakes faster and harder than the average human reaction in case of an impending collision. If a rear-end collision should occur, the crash-responsive NECK-PRO head restraints for the driver and front passenger deploy, minimizing neck injuries.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

AMG
DRIVING PERFORMANCE

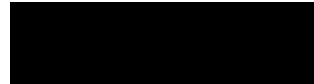

Takes your breath away, along with all inhibitions.

Its sports car-inspired body already renders most speechless – until the moment they hit the throttle. Going from 0 to 100 km/h in just 3.7 seconds, the CLS 63 AMG 4MATIC™ may be easily out of sight, but hardly out of mind. For the first time, a standard AMG 4MATIC™ all-wheel-drive system helps to keep you headed straight for astonishment, while the 550 horsepower Bi-turbo V8 engine propels this breathtaking performance. One step further, the new CLS 63 AMG S-Model 4MATIC™ raises the force of its sibling up to 577 horsepower to take your breath away faster than ever before.

Dressed for the occasion.

The finishing touches can mean the difference between a work of art and a true masterpiece. Whichever colour you opt for, you've made the right choice. Because with a selection of paint finishes benefitting from an extra scratch-resistant clear coat, your CLS is less susceptible not only to scratches, but also to sunlight, temperature variations, dust and soot.
