

The all-new 2014 E-Class

SEDAN AND WAGON

Mercedes-Benz

Absolutely driven.

This is the all-new 2014 E-Class. Every feature, every innovation, and every sculpted detail is engineered to express a singular vision: the E-Class is more than a statement in luxury. The E-Class is meant to be driven.

A driver's car. With room for passengers.

Observe the stance: bold, dynamic. Aggressive, but controlled. Attend to the face the E-Class presents to the world: a central star, fixed in a distinctive two-lamella grille. A taut, thrusting front end that sweeps back, but declaims 'forward'.

We call this redesign 'Avant-Garde'. Because it is.

See the way forward.

A driver needs to see. Integral to the redesign of the E-Class are its lights. Available full LED intelligent headlamps* match the intelligence behind the wheel: active curve illumination, for better visibility as you corner, plus Adaptive Highbeam Assist, so you see, and are seen, as your E-Class slices through the darkness.

*Optional on E 250 BlueTEC 4MATIC™, E 300 4MATIC™, E 350 4MATIC™ (Sedan & Wagon).
Standard on E 550 4MATIC™ and E 63 AMG models.

Command and control.

Yes, the genuine leather seats¹ that grace the cockpit say luxury. As does the stitched ARTICO dashboard^{1,2} and selectable three-colour ambient lighting. (The analogue clock is a tip in the same direction.) But this is an environment of command. Witness the precise control layout and new three-tube instrument cluster. And the perforated grip areas of the Nappa leather-trimmed multi-function three-spoke wheel. As we said, the E-Class is meant to be driven.

¹Available as part of a package for the E 250 BlueTEC 4MATIC™ and E 300 4MATIC™.

²Man-made leather.

Be quick.

Power. What drives the E-Class. Not to mention the E-Class driver. The E-Class matches engine to occasion: a 3.5L direct-injection V6, for plenty of power, every day; or the E 550 4MATIC™'s 4.6L Bi-Turbo V8, which unleashes 443 ft-lbs of torque. And, for those who wish to temper their adrenaline rush with incredible fuel efficiency, a 2.2L turbocharged BlueTEC diesel engine powers the E 250 BlueTEC 4MATIC™.

Be nimble.

Owning the road is what the E-Class is about. And it does. A 7G-TRONIC PLUS automatic transmission makes each shift at the optimum engine speed. Which makes for quicker acceleration. But the discretion of the driver is maintained – paddles on the steering wheel facilitate manual shifts.

Owning the road means staying on it. Which is what 4MATIC™ all-wheel drive ensures – monitoring brand-new 17" and 18" alloy wheels for slippage, and transferring power to wheels with traction. Without sacrificing the sharp steering and balanced feel of a rear-wheel drive vehicle. Or the sheer driving thrill.

17" twin 5-spoke wheels¹

18" twin 5-spoke wheels²

18" AMG twin 5-spoke wheels
(791 Design)³

18" AMG twin 5-spoke wheels
(794 Design)⁴

¹Standard on the E 300 4MATIC™ Sedan. Not available on all other models. ²Standard on all E 350 models. Available as part of an option package on the E 300 4MATIC™ Sedan.

³Standard on the E 550 4MATIC™ Sedan. Available as a standalone option on all E 350 4MATIC™ models. ⁴Available as a standalone option on the E 550 4MATIC™ Sedan. Not available on all other models.

Be driven.

In a whole new way. The E 63 AMG 4MATIC™ is a first for Mercedes-Benz AMG sedans. (A wagon is also available.) A 5.5L Bi-Turbo V8 powerplant – hand-crafted in the AMG ‘one man, one engine’ tradition – is harnessed to an all-new AMG 4MATIC™ all-wheel-drive system. Engine torque is distributed at a ratio of 33%/67%, front/rear axle. The result? Rear-biased power distribution that marries signature AMG driving dynamics with 4MATIC™ road-holding. The E 63 AMG 4MATIC™ can take you from 0 to 100 km/h in just 3.7 seconds.* And other places you’ve never been.

*Sedan. Wagon: 0 to 100 km/h in 3.8 seconds.

AMG

AMG. Kicked up a notch.

The E 63 AMG 4MATIC™ sets a superior standard. The E 63 AMG S-Model 4MATIC™ tops even that. With an elevated power curve, a boost in top speed, and a limited-slip rear differential for more grip during acceleration. Which is apropos: its 3.6 second 0-100 km/h time is virtually unmatched.* Other subtle style cues distinguish the S-Model. Red brake calipers, for example. They tell those who know that at the wheel sits an uncompromising driver.

*Sedan. S-Model Wagon: 0 to 100 km/h in 3.7 seconds.

////AMG

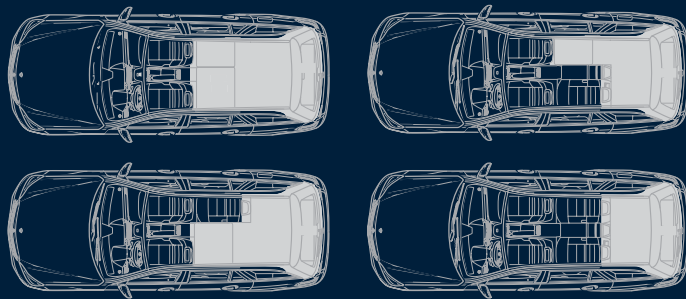

The E-Class, loaded.

Yes, the E-Class wagon is meant to be loaded. With anything you need to carry. But it also comes loaded – with style. Chrome roof rails serve, visually, as another contour line, enhancing the wagon's already athletic AMG styling. While unmistakable two-piece fibre optic technology LED tail lights tell everyone who they're following.

Stow away.

The E-Class wagon has room to spare. Thanks to standard third row rear-facing folding seats, and configurations that optimize its 1,950L maximum capacity. But you'll never feel packed-in, or that you're sacrificing luxury because you drive a wagon: thoughtful considerations like a heated steering wheel on a power steering wheel column with memory see to that.

Innovation. Backwards and forwards.

Parking. Something even true drivers need to do, occasionally. The E-Class puts PARKTRONIC with Active Parking Assist* at your disposal: it automatically detects suitable spaces, then – should you wish – smoothly reverses into them without active steering from you. Braking is automatic if an obstacle is detected.

High style meets high-tech in the ‘eyes’ of the E-Class. Striking, unitary housings hold an integrated LED lighting system. LEDs mean low energy consumption, long service life, and high resistance to vibration and shocks. Ensuring the driver can always look ahead – that’s true forward thinking.

*Optional on E 300 4MATIC™ and E 250 BlueTEC 4MATIC™, standard on E 350 4MATIC™, E 550 4MATIC™ and E 63 AMG models.

Safe driving.

We call it 'Intelligent drive'.* A suite of features that adds an unparalleled dimension of safety to piloting an E-Class.

DISTRONIC PLUS with Steer Assist: the most stressful driving is often when it barely feels like you are – in stop-and-go, multi-lane traffic. DISTRONIC PLUS lifts the driver's burden, assisting in lane and positional maintenance in traffic like this.

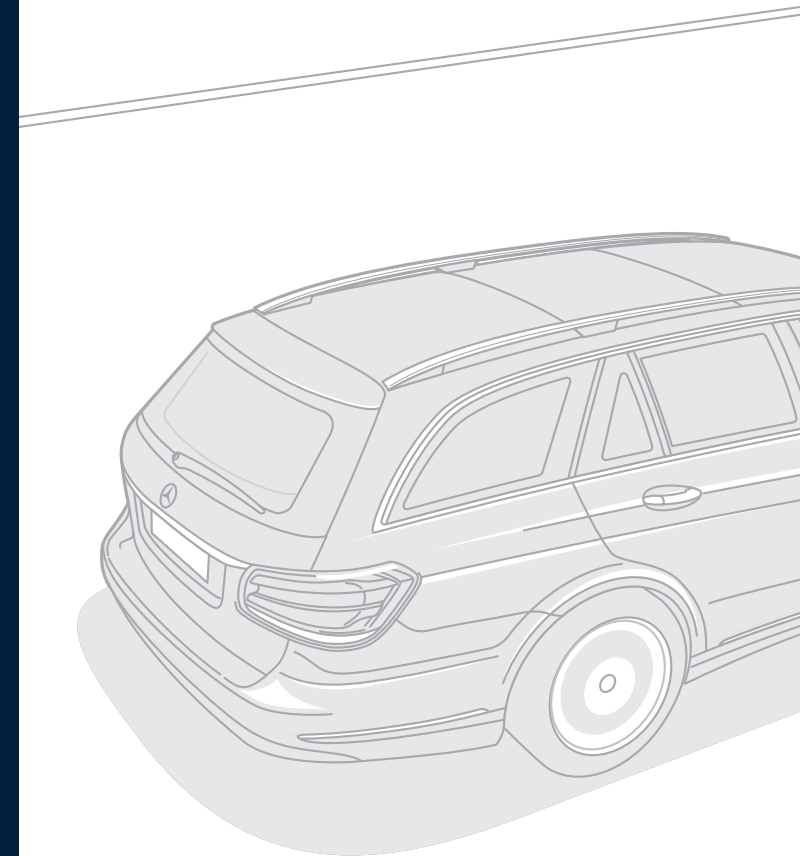

BAS PLUS with Cross Traffic Assist: especially useful at intersections, it detects pedestrians and cross-traffic, and boosts the braking power you apply accordingly.

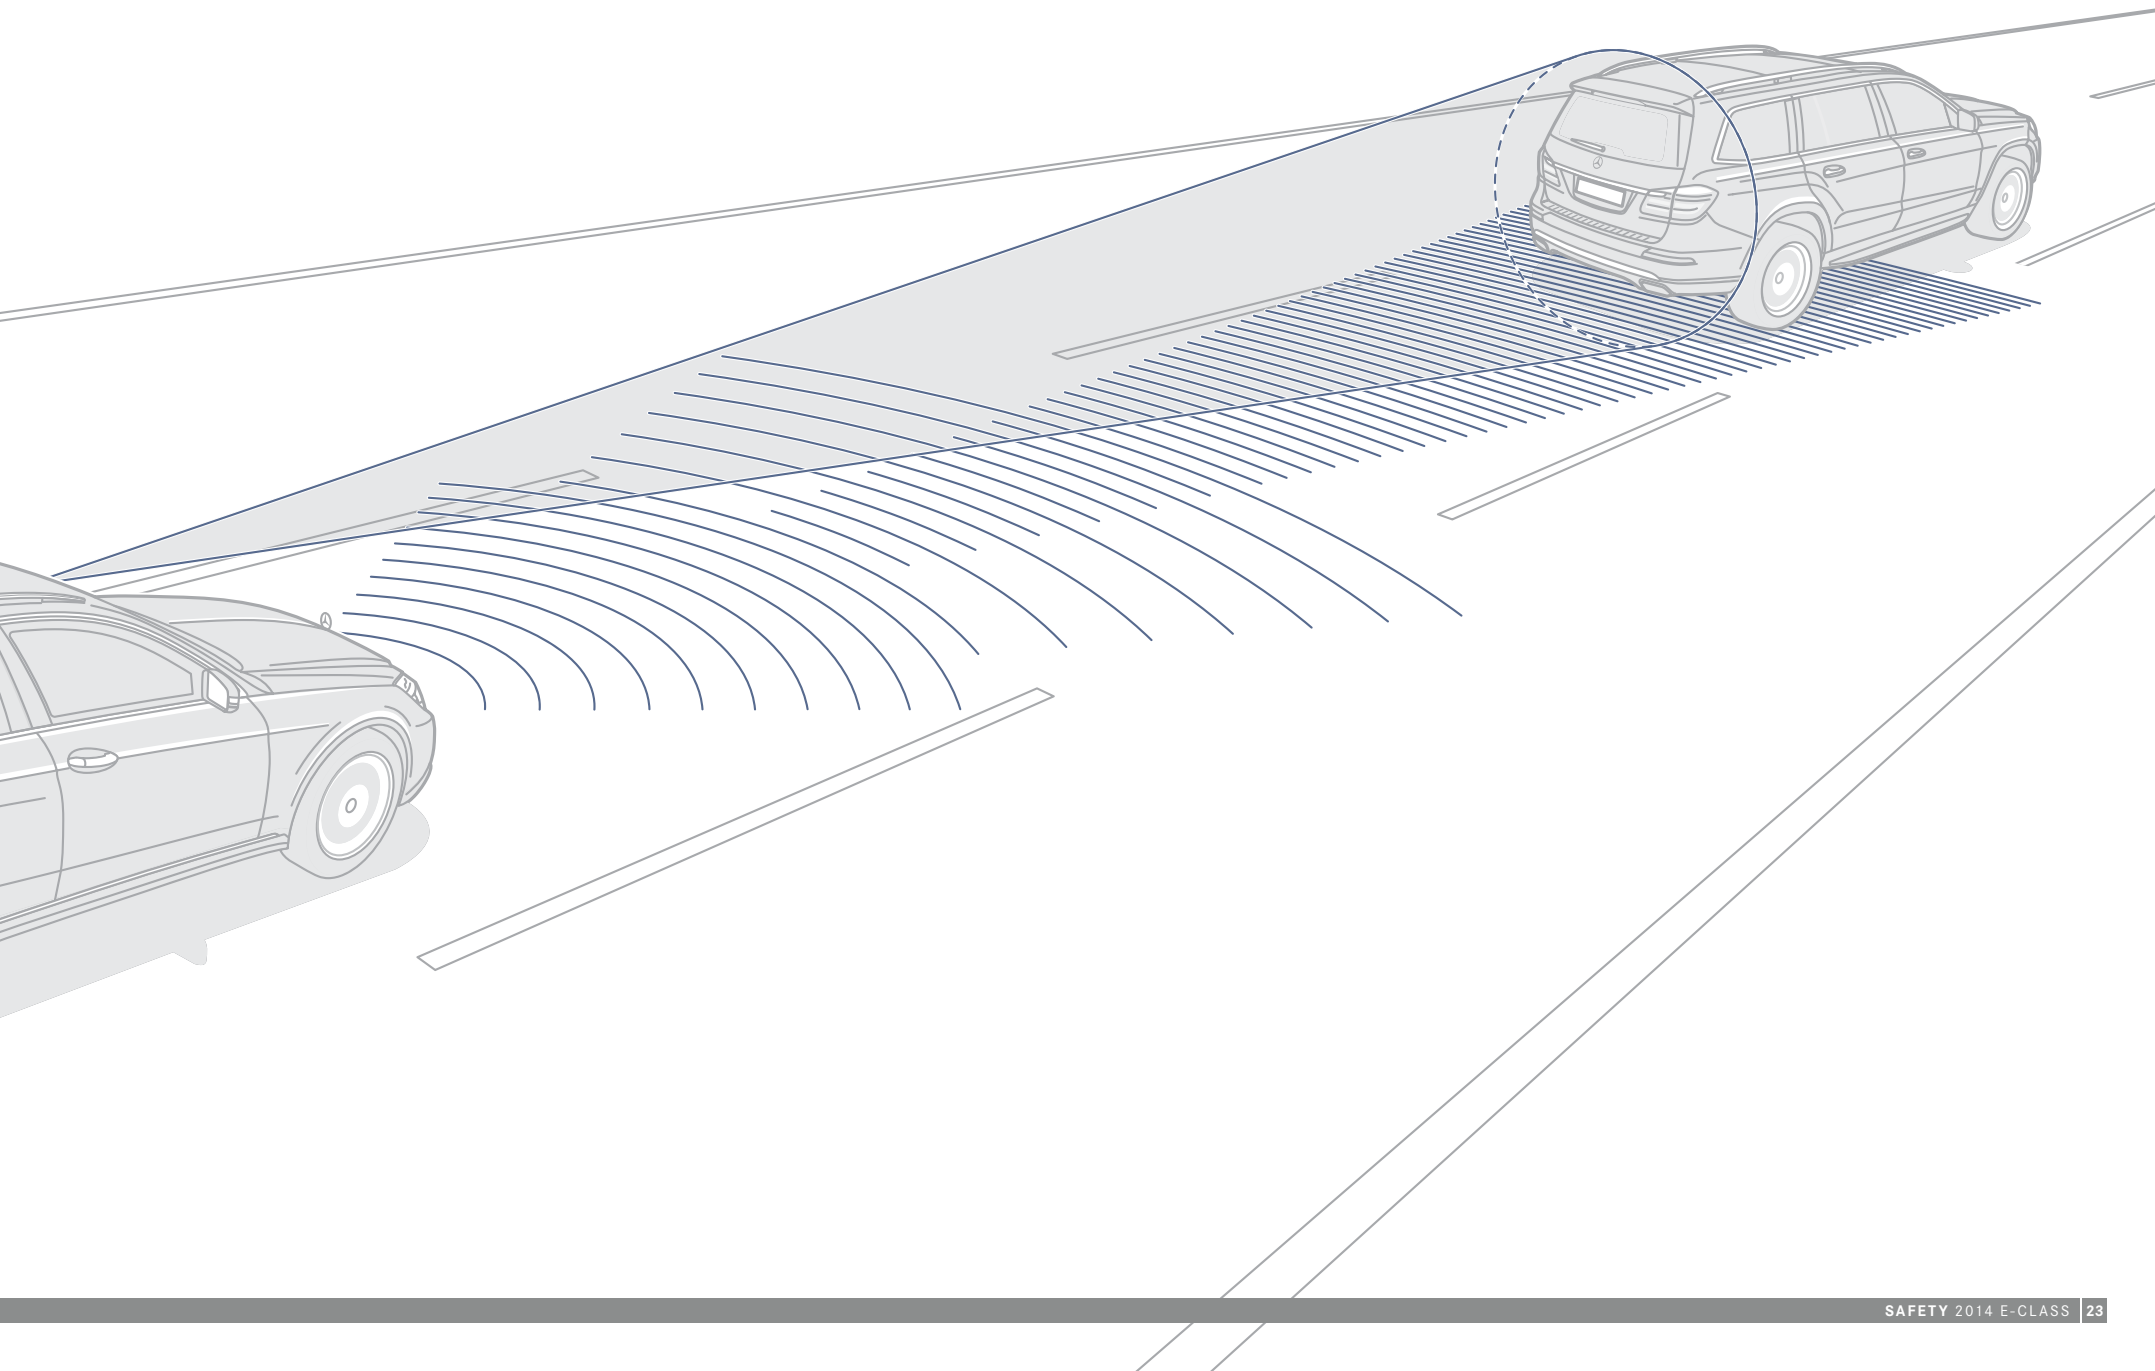

PRE-SAFE® Brake with Pedestrian Detection: a stereo camera and radar sensors look ahead. If a pedestrian is detected, autonomous braking (from an initial speed of up to 50 km/h) activates.

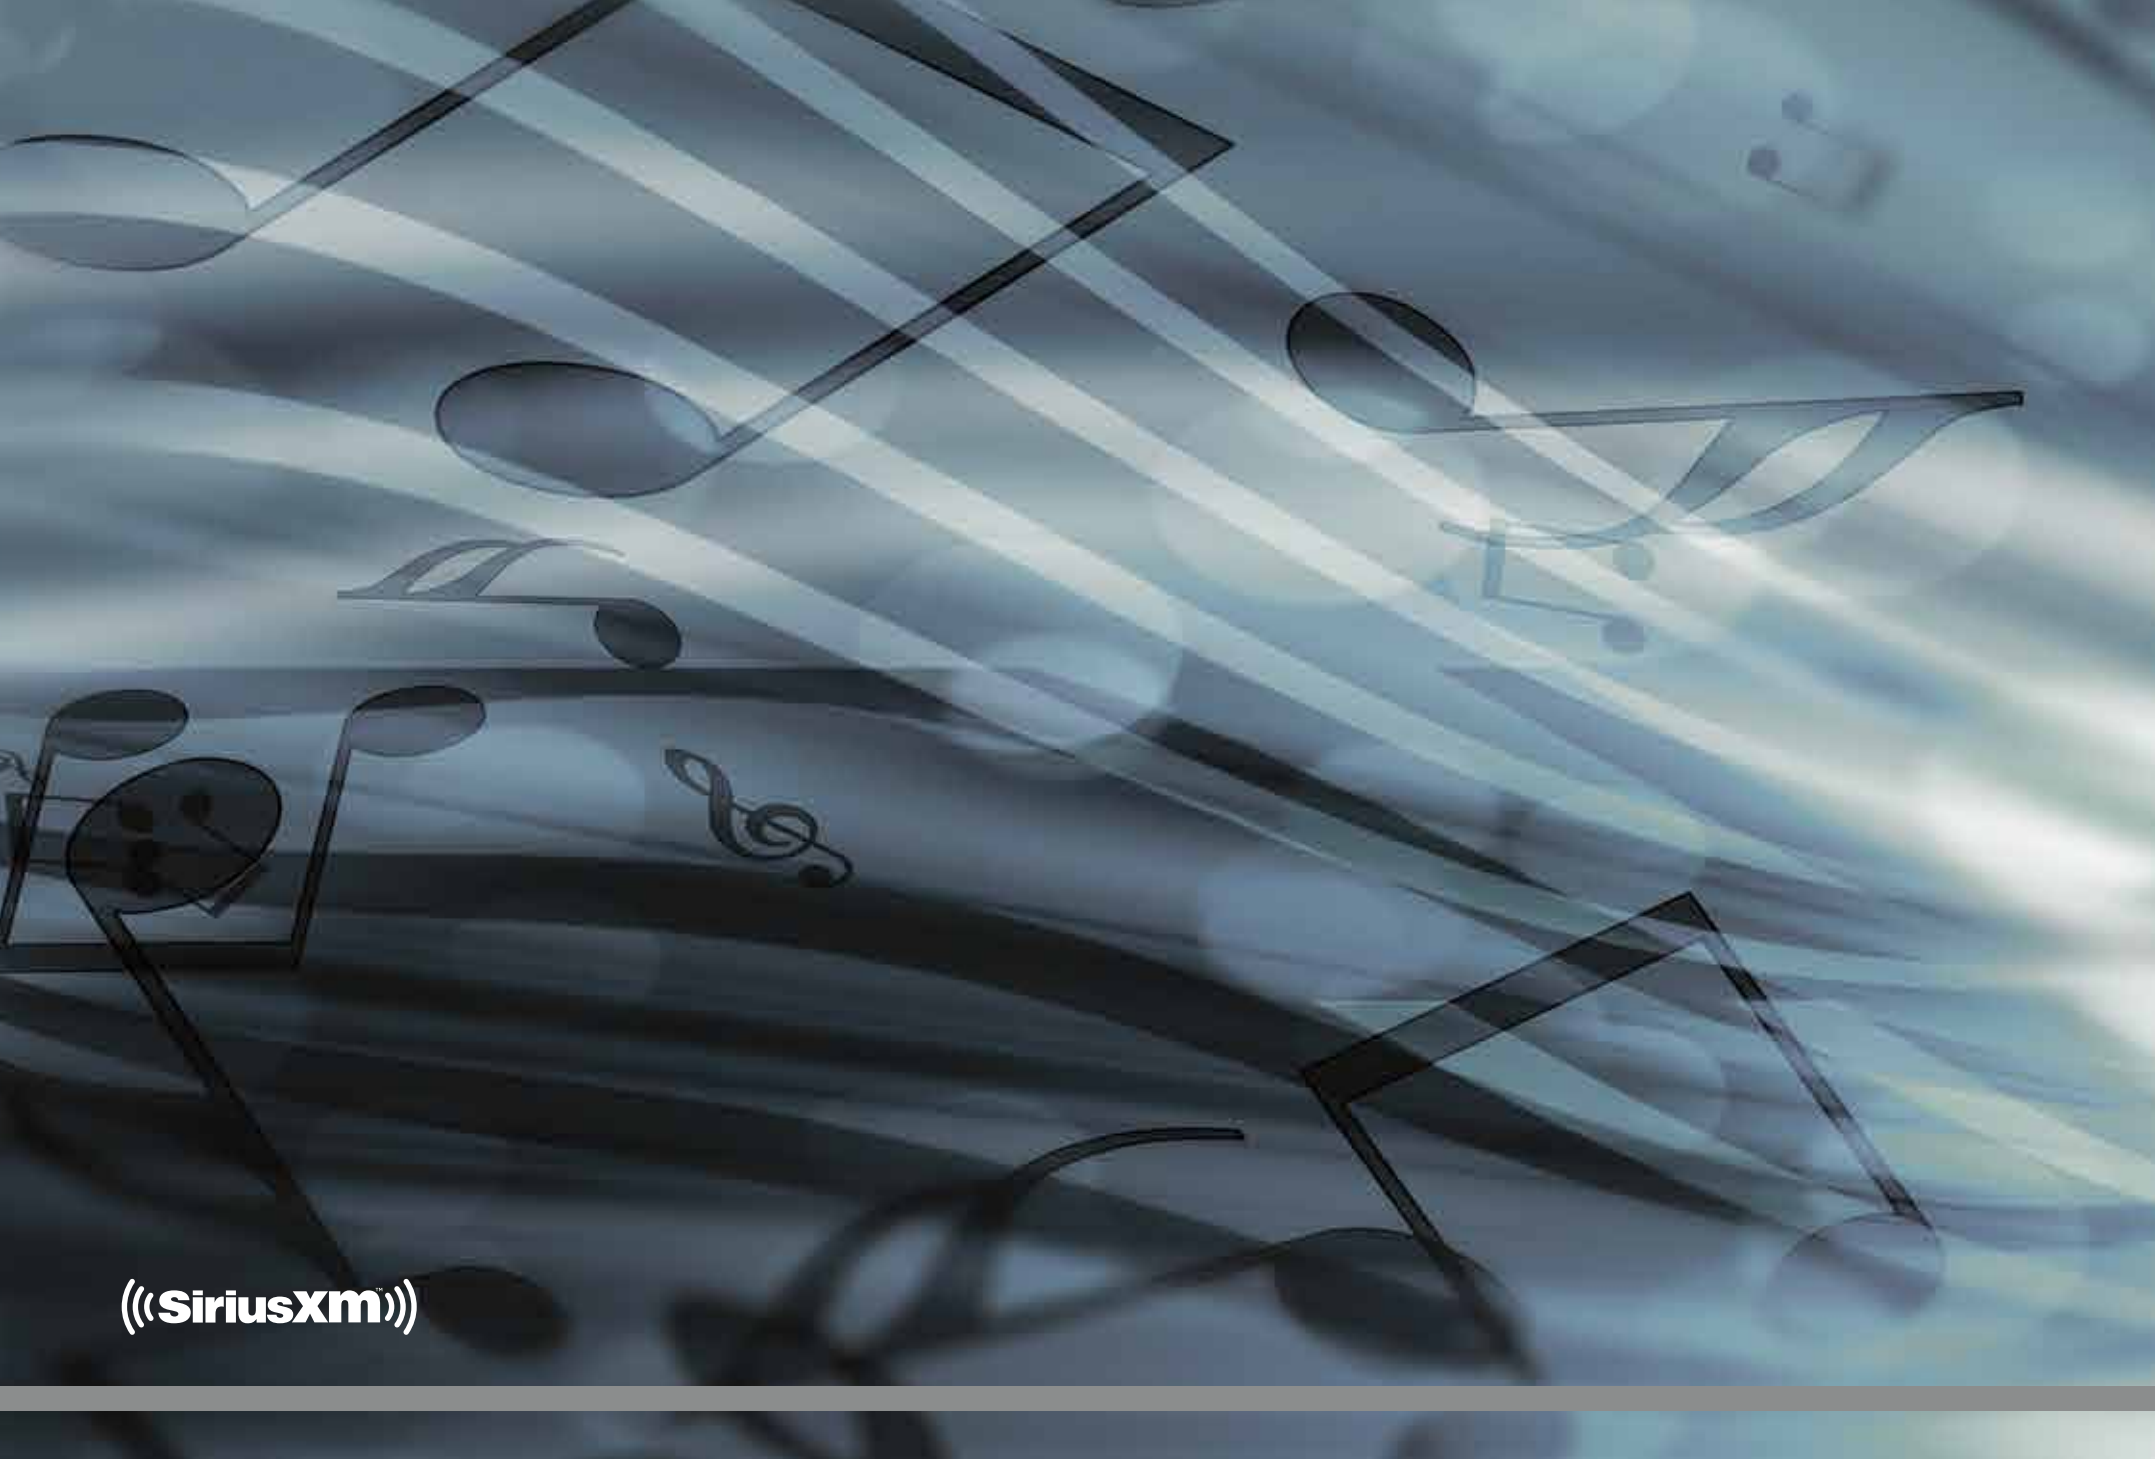

PRE-SAFE® PLUS: recognizes imminent rear-end collision, and adjusts occupant protection measures to reduce the force to which occupants are subjected. And it firmly applies the brakes in the event of such a collision to prevent secondary accidents.

These features join improved **ATTENTION ASSIST** (which alerts you in the rare cases where drowsiness interferes with driving your E-Class), **COLLISION PREVENTION ASSIST**, and **Adaptive Brake ASSIST**, which, as part of COLLISION PREVENTION ASSIST, automatically boosts brake pressure to take advantage of total available braking distance.

*Optional on all models.

((SiriusXm))

Entertainment for the road.

A purring engine and responsive steering are possibly entertainment enough for an E-Class driver. But you may prefer the sound of a 610-watt, 14 speaker harman/kardon® LOGIC7® Surround Sound System.* Through which over 120 channels of SIRIUS Satellite Radio** can be received, coast-to-coast, to stunning sonic effect. Listen to what you want, when you want – to stunning sonic effect.

*Optional on all non-AMG models. Standard on all AMG models.

**Optional for E 300 4MATIC™ and E 250 BlueTEC 4MATIC™. Standard on all other models.

Tailored to suit.

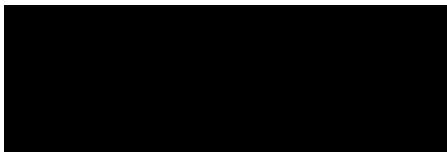

Your new E-Class will be an expression of yourself. So personalize it with the fitting combination of interior and exterior finishes. (To which we always add an extra scratch-resistant clear coat, reducing your E-Class' susceptibility not only to scratches, but to sunlight, temperature variation, dust, and soot.)

Accessorize accordingly.

Whether you choose the E-Class Sedan or Wagon, you can choose elements that will add refinement and practicality to your drive.

Trunk Cargo Tray

Protect the load area from dirt and spills. With a raised-edge, impact-resistant, non-split polypropylene trunk tray, precision-fitted to the load area. (Optional cargo container shown sold separately.)

Lockable Utility Bar (2 piece set)

Carry more. Our basic carrier facilitates attaching and securely locking bicycle racks, ski & snowboard racks, or a cargo container to the roof. (Racks and containers sold separately.)

Illuminated Door Sill Panels

Highlight your entrance. With stainless steel door sill panels in which "Mercedes-Benz" illuminates every time you open the door.

Chrome Handle Cups

Protect against scratches. And add a further style note. With high-shine chromed door handle recesses.

Drive with assurance.

You already do. But Mercedes-Benz adds to your assurance, and enhances your E-Class ownership experience, with these benefits:

24-hour Roadside Assistance

For the duration of the basic warranty coverage period of 48 months, (and the duration of the Extended Limited Warranty, if you've opted for it) Mercedes-Benz Roadside Assistance will be at your service. We'll bring you gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown – if attempts by our Roadside Assistance technician have not made your vehicle safely operable – towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear period

These parts are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first: brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. For enhanced confidence, you can opt for a Mercedes-Benz Extended Limited Warranty.²

Customer service

Owning an E-Class is unquestionably an inspiration to any driver. But should you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday. Knowledgeable Mercedes-Benz experts can advise you on all matters E-Class. From the finer points of your car's audio system, to the location of our nearest dealership. Just call 1-800-387-0100.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, you're covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

Test drive a E-Class online. Or on the road.

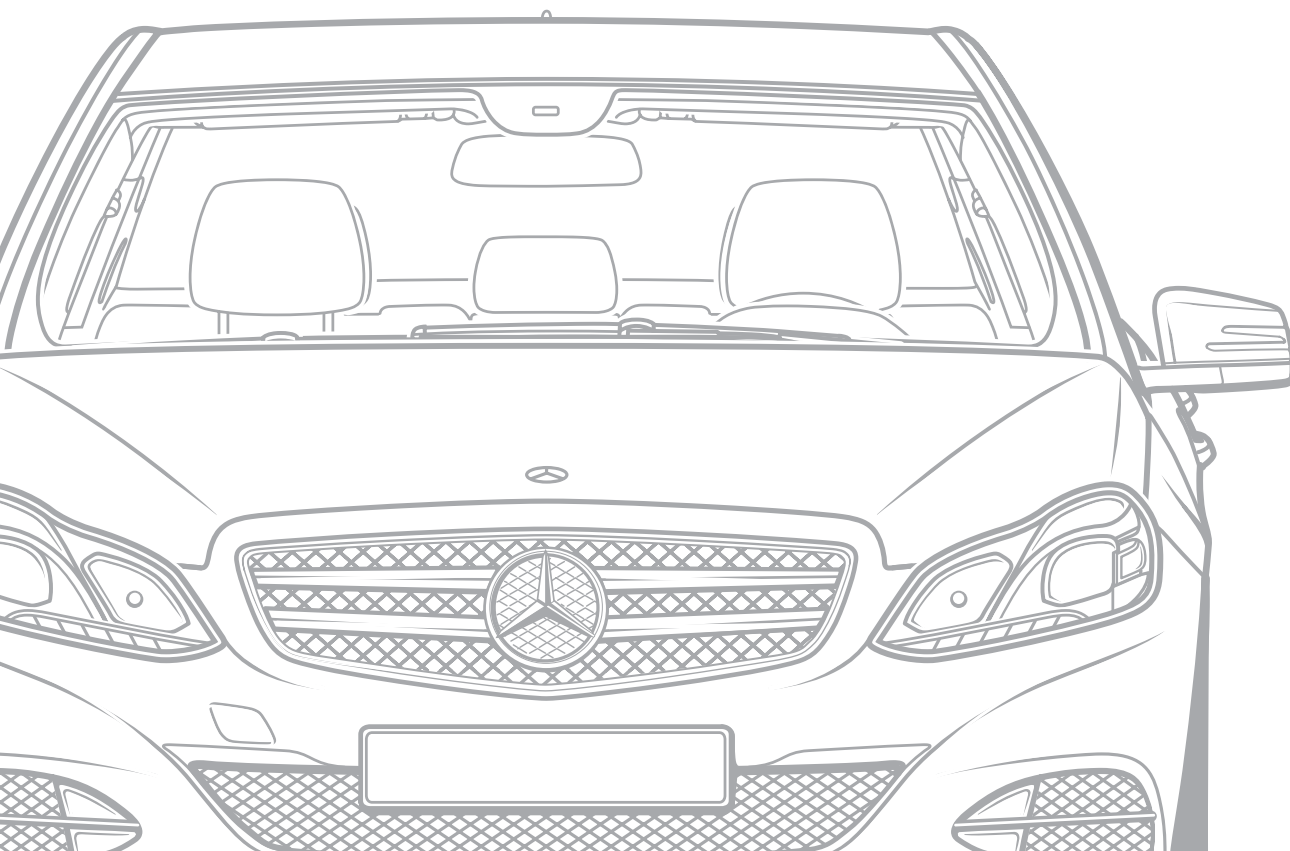

Follow us online. And visit **mercedes-benz.ca** for even more of the E-Class experience.
Or to book a test drive with your dealer.
