

The 2014 SLK

Mercedes-Benz

Air born.

More than a convertible, the 2014 SLK is designed to race with the wind. Every detail speaks to performance. From the wide, low bumper with large air inlets, to the long hood with streamlined contours. The AIRGUIDE draft-stop system¹ directs turbulent air away from your head, to keep the wind in your sails. And active Bi-Xenon headlights² throw light further, perfect for those fast approaches. Meanwhile, the fully automatic Vario roof offers you either a climate-controlled closed cabin or an open sky in less than 20 seconds. Custom made for a high performance machine with a fun side.

¹Optional for SLK 350 & SLK 55 AMG. Not available on SLK 250. ²Standard on the SLK 350 & SLK 55 AMG. Optional for SLK 250.

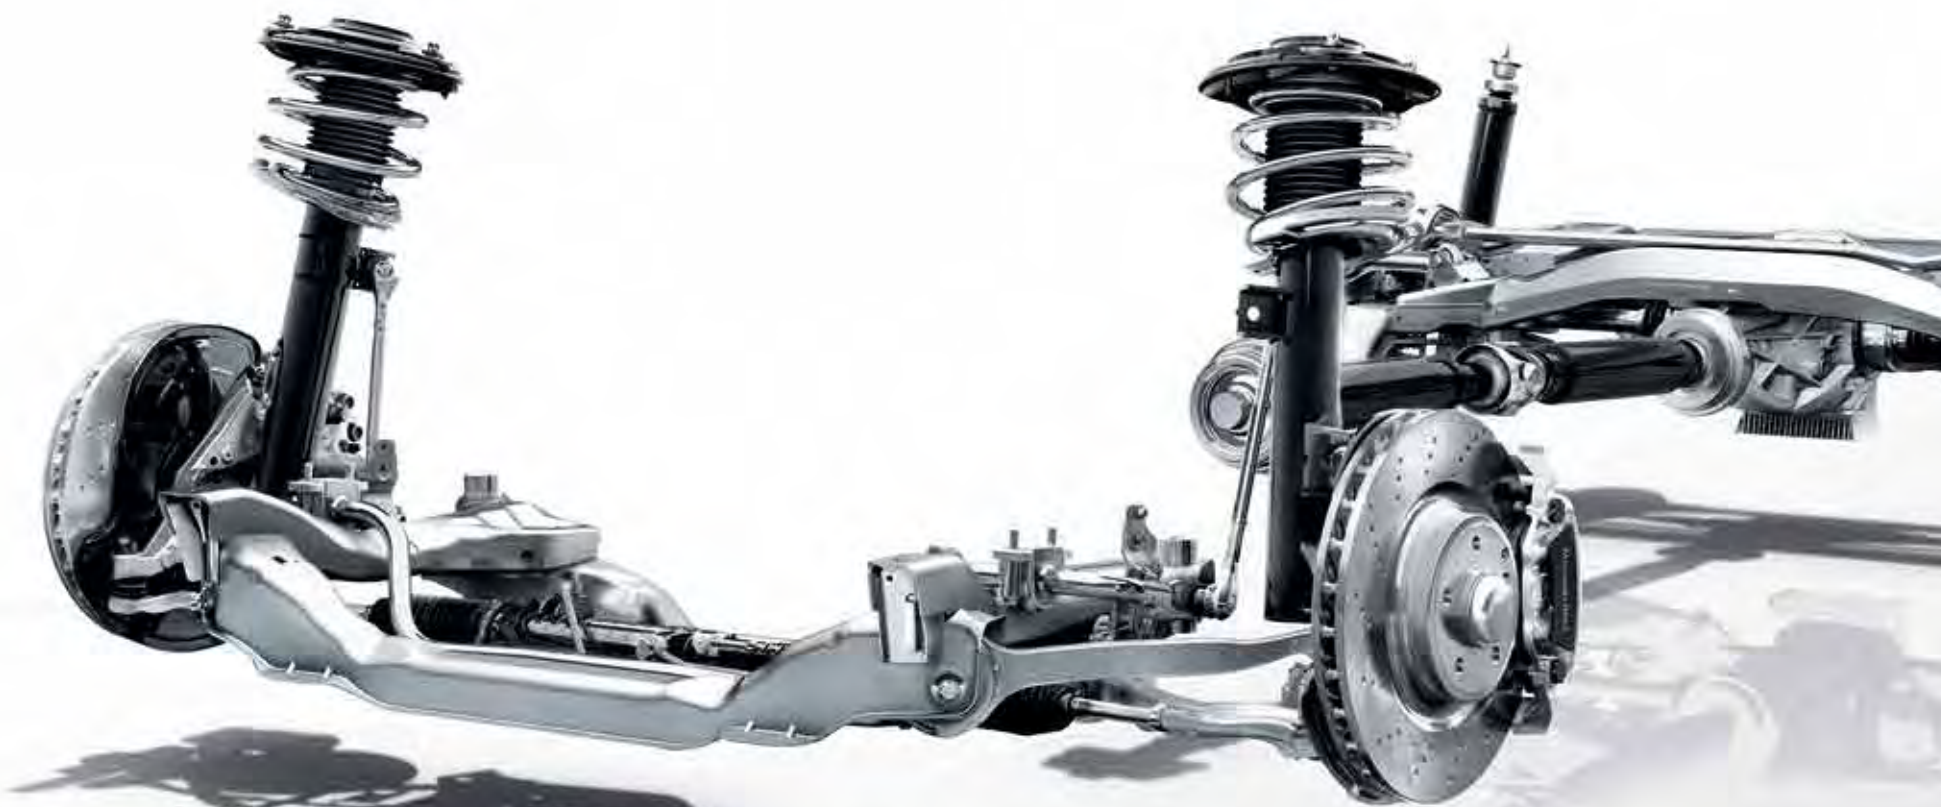

A detailed view of the interior of a 2014 Mercedes-Benz SLK. The image shows the black leather steering wheel with the Mercedes-Benz logo in the center, the instrument cluster with red-lit gauges, and the COMAND APS Multimedia System with a color display showing a navigation map. The car's body is painted a vibrant red, and the interior features sun-reflective leather and circular air vents.

A portrait of luxury.

The excitement of the 2014 SLK doesn't stop at cruising on the open road. It continues to an interior enveloped in sumptuous sun-reflective leather¹. The new colour instrument display¹ is also a thing of beauty. And like all good art, the SLK entertains. With the COMAND APS Multimedia System including LINGUATRONIC voice control², all of your video and audio options are rolled into a simple and easy to use interface. The 500-watt harman/kardon[®] LOGIC7[®] surround sound system² with 10 precisely placed speakers delivers a truly breathtaking aural experience. And then restore your breath with AIRSCARF² a neck level heater that extends the open-top season.

¹Optional on SLK 250. Standard on SLK 350 and SLK 55 AMG. ²Included in the Premium Package.

Superior drive.

The 2014 SLK comes by its aggressive exterior honestly. It is the descendant of the 190 SL roadster, and has power worthy of the name. Within the SLK 250, a 1.8L direct injection turbocharged engine develops 201 horsepower and 229 lb-ft of torque. And under the hood of the SLK 350, you'll find a 3.5L direct injection V6 engine with 302 horsepower and 273 lb-ft of torque.

The Dynamic Handling Package¹ gives drivers the ability to shift between sport and touring driving styles with the push of a button. The electronically controlled dampers adjust themselves instantly to maintain a smooth feel. Torque vectoring brakes make ease of spirited driving, as does the 7G-TRONIC PLUS transmission by increasing the number of gears, thereby lowering the increments between them. Call it a finely tuned force of nature.

Fly safe.

Safety has never been as stylish as fixed rollover bars with aluminium inlays¹, just one of the ways Mercedes-Benz brings safety and style together.

DISTRONIC PLUS²: helps to alleviate stop-and-go traffic frustration by assisting you with maintaining optimum distance between cars.

ADAPTIVE BRAKE: improves ride comfort and safety with features that increase the responsiveness and effectiveness of the brakes. And the supporting HOLD function prevents the vehicle from rolling unintentionally while stopped.

PRE-SAFE® Brake²: if a potential collision hazard is identified, visual and audible signals warn the driver. If the driver does not respond, independent partial braking can be activated before the impact. In the event of a highly critical situation, the independent full brake application activates.

ATTENTION ASSIST: is particularly helpful on long journeys or night driving. The system warns drivers if it detects signs of drowsiness or inattention.

¹Included in Premium Package for SLK 350 and SLK 55 AMG. ²Only available for SLK 350 as part of DISTRONIC PLUS Package.

AMG upshifted.

The 2014 SLK 55 AMG combines style with performance, and accelerates them. And with AMG SPEEDSHIFT PLUS 7G-TRONIC, you can accelerate them quickly: 0-100 in 4.6 seconds, to be exact. A handcrafted 5.5L AMG V8 engine with 415 horsepower and 398 lb-ft of torque gives you power when you want it, and AMG Cylinder Management saves you fuel. The available AMG Performance Package exceeds proficiency with AMG Performance suspension, AMG carbon fibre trim and AMG Performance steering wheel with DINAMICA inserts. Because style always complements performance, especially at top speed.

A vehicle of self expression.

We know that your SLK is an extension of yourself. That is why we've selected the highest quality paints, leathers and trims. Whatever you choose, a refined look will be the result. And we always add a scratch resistant clear coat to maintain this look for years to come.
