

The 2015 SL-Class

ROADSTER

Mercedes-Benz
The best or nothing.

An interior that's truly worthy of the exterior.

Create your desired environment with ambient lighting that bathes the interior in pleasant, indirect light with three colour options. Each can be selected via the 3-spoke multifunction leather steering wheel, which provides both excellent vehicle control and a high-tech sporty aesthetic. Enhanced COMAND navigation now includes a new colour theme. To heighten the interior appeal, switches and bezels in silver chrome and aluminium trim add elegance to the SL-Class' athleticism for the perfect balance of sportiness and refinement.

Turning glances into stares.

What first draws attention is the advanced aerodynamic design. An elongated, lightweight, all-aluminium body accentuated by two chrome-plated fin air inlets. Then the dramatic, sharply defined shoulder lines running across the entire length of the vehicle. Finally your eye traces along the prominent, angular bumper with integrated LED running lamps then rests on the iconic star centred in the newly designed, single-blade radiator grille. Indeed, the SL-Class is an amazing sight to behold.

The power and the glory.

Behind the prominent 3-pointed star, an engine of immense capability is poised to do your bidding. The SL 550 boasts 429 hp, increasing to 577 hp in the SL 63 AMG and an exuberant 621 hp in the SL 65 AMG. Transferred to the asphalt by advanced 7-speed transmissions, the power under your command provides a level of responsiveness that few will ever experience. Of course, a correspondingly impressive high-performance braking system ensures total control while the available red painted calipers¹ act as a visual reminder of the need for occasional restraint.
