

2017 S-Class Sedan

Future Driven.

Mercedes-Benz
The best or nothing.

Athletic elegance

For generations, one car has stood at the pinnacle of automobiles. Its majestic presence reflects both the pride of its occupants, and the power of its innovations. The S-Class leads the industry into tomorrow with innovations that change the tide, and a design that will stand the test of time. Strong, powerful and majestic, it's also efficient and sleek. An S-Class Sedan doesn't merely stand out in a crowd. It stands above and ahead.

19" and 20" wheels

With a wide selection of 19" and 20" wheel options for each model, the personalization of an S-Class matches the potential of its performance. And with legendary 19" and 20" AMG wheels among the variety of designs, drivers and onlookers alike can enjoy the presence and poise with which every S-Class model takes to the road.

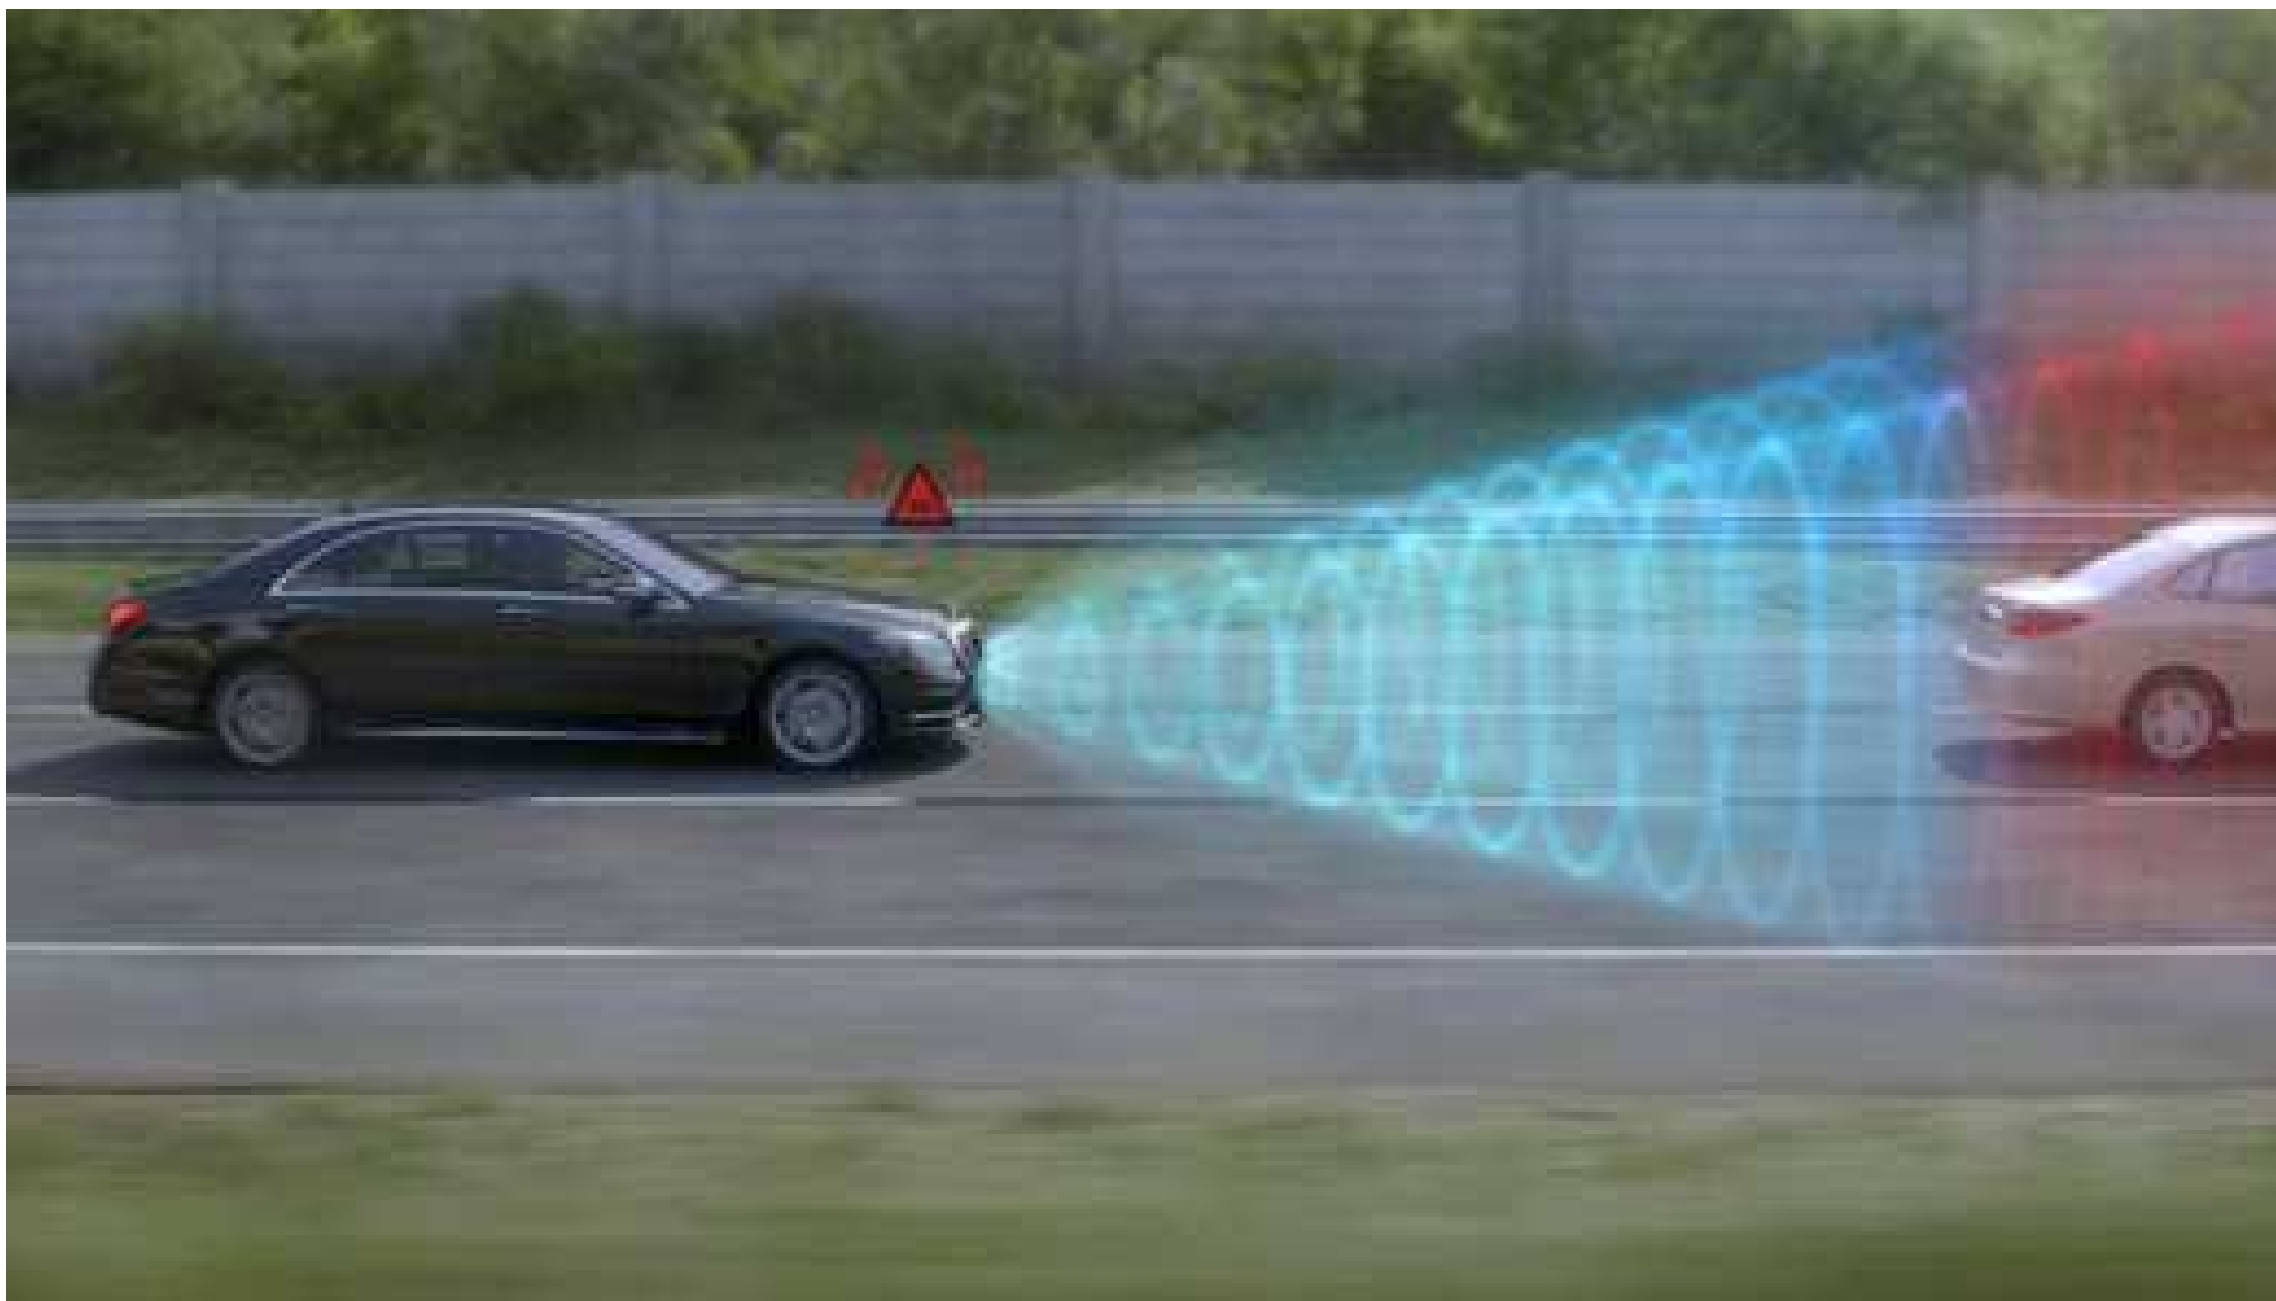

Exquisite refinement, abundant space and style

Every element of the spacious cabin is designed to soothe and stimulate the senses. It's meticulously crafted, finely finished and exquisitely tailored. Supple leather, in a wide assortment of styles and colours, is impeccably topstitched and fitted by hand. Hand-finished wood spans the cabin and a range of tastes, from traditional to exotic. And from its flowing shapes to its LED lighting, the cabin delights the eye as well as the touch.

100% LED lighting

The S-Class is the first modern vehicle without a single lightbulb. From its full-LED headlamps with Adaptive Highbeam Assist and Active Curve Illumination, to its multizone, multicolour ambient cabin lighting, nearly 500 more efficient, effective and enduring LEDs reveal that, once again, the S-Class is a beacon of inspiration for the entire industry.

COLLISION PREVENTION ASSIST PLUS

Radar-based technology alerts you if you're approaching a vehicle ahead at a speed and distance that suggest a collision is likely. In addition to alerting the driver, its autonomous braking feature can apply up to 100% of the car's braking force automatically, from speeds up to 105 km/h, to help prevent a collision or reduce its severity.

ATTENTION ASSIST

The first system of its kind, ATTENTION ASSIST can automatically alert the driver if it detects signs of drowsiness on long trips. It continuously monitors up to 70 parameters of driving behavior, starting in the first few minutes of a drive. The latest generation of this innovation can help detect drivers who begin their trip drowsy and offer more useful information via the dashboard display.

Intelligent Drive

Available Intelligent Drive helps ease your every move. Radar-based DISTRONIC PLUS adapts your cruising speed to the traffic flow, even if it's stop-and-go, while Steering Assist helps keep you centred in your lane. Active Lane Keeping and Blind Spot Assists keep a virtual eye to either side. Cross-Traffic Assist watches for vehicles and pedestrians in your path. And PRE-SAFE PLUS helps prepare for a rear-end collision before it happens.

Innovative parking assists

PARKTRONIC's ultrasonic sensors help detect obstacles while you're negotiating tight spaces, alerting you with audiovisual indicators in the cabin. Active Parking Assist can help you find a parking spot, then expertly steer you in hands-free – like a virtual valet. The standard rearview camera shows a live colour view of the area behind your S-Class on the in-dash screen, or take a look around with the advanced 360° camera and the advanced Surround View System.

Indulgent comfort, enduring support

Intuitive, and artfully sculpted, controls offer 16-way power adjustment of the heated front seats. But that's just the beginning of its available comforts. The armrests, doors and rear seats are also heated. The seats can add side support in corners or offer a "hot stone" massage. They can offer cooling ventilation. And with twin individual seats available, the rear cabin rivals the comforts of first-class air travel.

Digital instruments and touchpad COMAND

Dual 12.3" high-resolution screens combine analogue-style gauges with animated displays of driving systems, vehicle settings, entertainment and navigation. An intuitive touchpad makes the advanced COMAND system even easier to use, including fingertip gestures and handwriting recognition. The available Head-Up Display, standard on Mercedes-AMG and S 600 models, can provide useful driving information with minimal "eyes off the road."

COMAND navigation and audio

The COMAND system includes navigation with a 200GB hard drive for maps and data, as well as lane guidance as you approach turns and LINGUATRONIC voice control that can learn your natural way of speaking. Listening choices are nearly limitless, from standard SiriusXM® Radio to Bluetooth wireless audio streaming, two USB ports and a 10GB Music Register.

Burmester Premium and 3D Surround Sound

One of the most respected names in handcrafted high-end home audio, Germany's Burmester®, has developed two surround-sound systems for the S-Class. The standard 13-speaker 590-watt system fills the cabin with rich, pure digital sound. The available Burmester® High-End 3D Surround Sound system aims to be the pinnacle of mobile audio, with 1,540 total watts delivering unsurpassed audio quality via 24 speakers, including 3D speakers in the ceiling.

Advanced locking and starting features

From its pushbutton KEYLESS-START feature to its power trunk lid, the S-Class Sedan makes getaways easier. Standard KEYLESS-GO lets you unlock and lock the car with a touch of a door handle. And the power trunk closer includes HANDS-FREE ACCESS, which opens or closes the trunk with just a gentle kick of your foot under the rear bumper — ideal when your arms are full.

Purified, and rarified air

Available dual charcoal filters team with an ionizer that uses an electrical charge to virtually eliminate impurities and odors from the cabin air. It helps make the air quality more enjoyable and healthier, especially for those with asthma or allergies. A fragrance atomizer introduces any of four distinctive yet subtle aromas via an LED-backlit vial in the glovebox and special ductwork. The scent won't linger on cabin surfaces or your clothes.

Advanced biturbo V-6, V-8 and V-12 power

S-Class powerplant choices include five biturbo engines: a Direct Injection V-6, two Direct Injection V-8s, and a pair of superlative V-12s. With stronger torque and greater efficiency, the S-Class engines accelerate the pace of progress. Each of them employs numerous advanced technologies to turn less fuel into more energy, for power to spare with fewer emissions left behind. An ECO Start/Stop system saves even more fuel at stoplights.

7-speed and 9-speed transmissions

With no fewer than seven speeds, the S-Class automatic transmissions offer a wide range of gear ratios with smaller steps in between, for rapid response, smooth shifting and a seamless delivery of the engine's ample torque. In the S 550 4MATIC Sedans, a new 9-speed provides an even greater range, and shifts that are both quicker and more seamless. It's also lighter and more fuel-efficient.

The S 550e PLUG-IN HYBRID Sedan

An advanced biturbo gasoline V-6 teams with an 85kW electric motor and innovative lithium-ion battery for outstanding emissions, fuel economy and performance. It can travel up to 33 km, at up to 140 km/h, on 100% electric power offering many drivers a gas-free commute. E-BOOST lets the torque-rich electric motor supplement the gas V-6 for quicker passing. And the battery can be charged while driving, at public charging stations or at home. Distinctive "Hybrid Blue" details accent the brake callipers and headlamps.

Innovations in comfort and control

No matter which S-Class you choose, its suspension offers a choice of Sport and Comfort modes, plus automatic levelling at all four wheels. The adaptive AIRMATIC air suspension tames the road with quick-thinking semi-active response and light weight. The available camera-assisted MAGIC BODY CONTROL is an industry first. It can actually see bumps ahead, and act to quell them in real time.

4MATIC all-wheel drive

From a loose surface to a tight corner, 4MATIC all-wheel drive (standard on V-6 and V-8 gas-powered models) adds confidence on any road, in any season. Continually monitoring for wheel slip, it always sends torque to the wheels with the best grip. It's also one of the nimblest, lightest and most efficient AWD systems in its class, so it adds to driving fun in dry corners and helps maintain excellent fuel economy year-round.

Handcrafted by racers

The 577-hp Mercedes-AMG S 63 and 621-hp Mercedes-AMG S 65 lead their class in handcrafted V-8 and V-12 power, but it's in the driver's hands where their rewards are richest. Astounding thrust is delivered with exceptional agility while enveloping you in exclusive luxury. They may lead with power, but they follow through with consummate grace.

577-hp AMG V8 and 621-hp AMG V12

Advanced, racing-derived technology is united with a powerful AMG tradition: an engine that's crafted by the hands of its own "master." Direct Injection, a pair of high-rpm turbos and patented NANOSLIDE cylinder walls team up for 577 hp and 664 lb-ft of torque in the S 63. In the S 65, twin turbos feed twelve cylinders to create a 621-hp, 737-lb-ft force of nature.

Performance in every detail

In every detail, and in every move, the flagship Mercedes-AMG sedans show just how exuberant elegance can be. From their AMG-developed suspensions to their exquisitely rendered cockpits, each sedan redefines abundance and advancement. New Exterior Carbon Fiber and Night Packages express their authoritative performance. And from their seamless thrust to their impeccable stitchwork, they outperform not just most other sedans but most every expectation of what an automobile can do.

Premium Package

A popular suite of premium luxuries you'll soon consider must-haves, with innovative enhancements in everyday convenience and year-round comfort.

Standard on Mercedes-AMG S 63 4MATIC, S 600 and Mercedes-AMG S 65

Roller blinds for rear side windows

Electrically operated mesh screens keep harsh sunlight and prying eyes out of the rear cabin. The driver and either rear passenger can operate the blinds, which cover both the main window and quarter window via buttons on each door.

Climate Comfort front seats

Climate Comfort seats are a luxury you'll soon consider a necessity. Three levels of heating and cooling ventilation are offered. By gently circulating air through perforations in the seat and backrest, the seats help keep you cooler and your clothes dryer during warmer months. On cold or damp days, using both the ventilation and heating features together can circulate the seat heating more quickly, to help keep you warm and dry.

Drive-Dynamic multicontour front seats

Adjustable side, lumbar and shoulder supports let you custom-tailor your seating comfort. Six soothing and rejuvenating massage modes include two that combine massage and heat for a “hot stone” effect worthy of a high-end spa. Active side bolsters can automatically increase lateral support when cornering – or even in the event of a potential accident.

EASY-ADJUST front head restraints

Luxury-type front head restraints offer adjustable side wings for an added touch of first-class comfort.

Premium Package cont.

A popular suite of premium luxuries you'll soon consider must-haves, with innovative enhancements in everyday convenience and year-round comfort.

Standard on Mercedes-AMG S 63 4MATIC, S 600 and Mercedes-AMG S 65

360° camera

The 360° camera is actually four cameras whose views in all four directions are composed into a single, live overhead view of your immediate surroundings. Displayed on the in-dash screen during low-speed manoeuvres, it helps you avoid obstacles as you negotiate tight spaces, whether you're moving forward or backing up.

Nappa leather upholstery

Superlatively soft, smooth-grain Nappa leather is hand-fitted to the seating surfaces and head restraints. Horizontally stitched fluting of the centre seat section adds stylish detail.

Sport Package

Aggressive, racing-bred form and function for the S 400 and S 550 models.

AMG Styling Package

The performance spirit of the S-Class takes shape in an aggressive front air dam that draws the wind – and the eye – past the sculpted side sills and all the way around to the seductively styled rear apron.

19" AMG twin 5-spoke wheels

Reflecting their performance roots while revealing the impressive brake hardware behind them, 19" AMG wheels feature five pairs of ultrathin spokes with highly polished surfaces and painted inlays. They're wrapped in low-profile all-season tires.

Sport Brake System

Perforated brake rotors – whose holes are cast in place when the disc is made, rather than conventional cross-drilling after the fact – help dissipate the heat of hard braking. They're grasped by large painted calipers inscribed with Mercedes-Benz logos.

Exclusive Package

Extraordinary luxury and craftsmanship expressed through exquisite upholstery and trim elements.

Standard on S 600 and Mercedes-AMG S 65

Exclusive Nappa leather upholstery

Superlatively soft, smooth-grain Exclusive Nappa leather is hand-fitted to the seating surfaces and head restraints. Exquisite diamond-pattern stitching highlights the centre seat sections as well as the leather inlays in the doors and dash. The upper dash and doors are also hand-fitted in finely grained leather.

DINAMICA roof liner

Standard on Mercedes-AMG S 63 4MATIC / Not available on Mercedes-AMG S 65

The ceiling and roof pillars are lined in rich DINAMICA, a manmade material that combines the look and feel of suede with easy upkeep and enduring beauty.

Extended trim elements

The already generous application of hand-finished wood is extended to the centre panels on all four doors and the rear air vent surround on the console. Additional wood detailing on the front seatbacks further enhances the rear-cabin ambience.

Illuminated door sill panels

Standard on Mercedes-AMG S 63 4MATIC

Mercedes-Benz logos illuminate in a soft white glow as you open the front door, to welcome you into the cabin or ease your exit. Sill panels with illuminated AMG logos are standard on the AMG models.

Premium Rear Seating Package

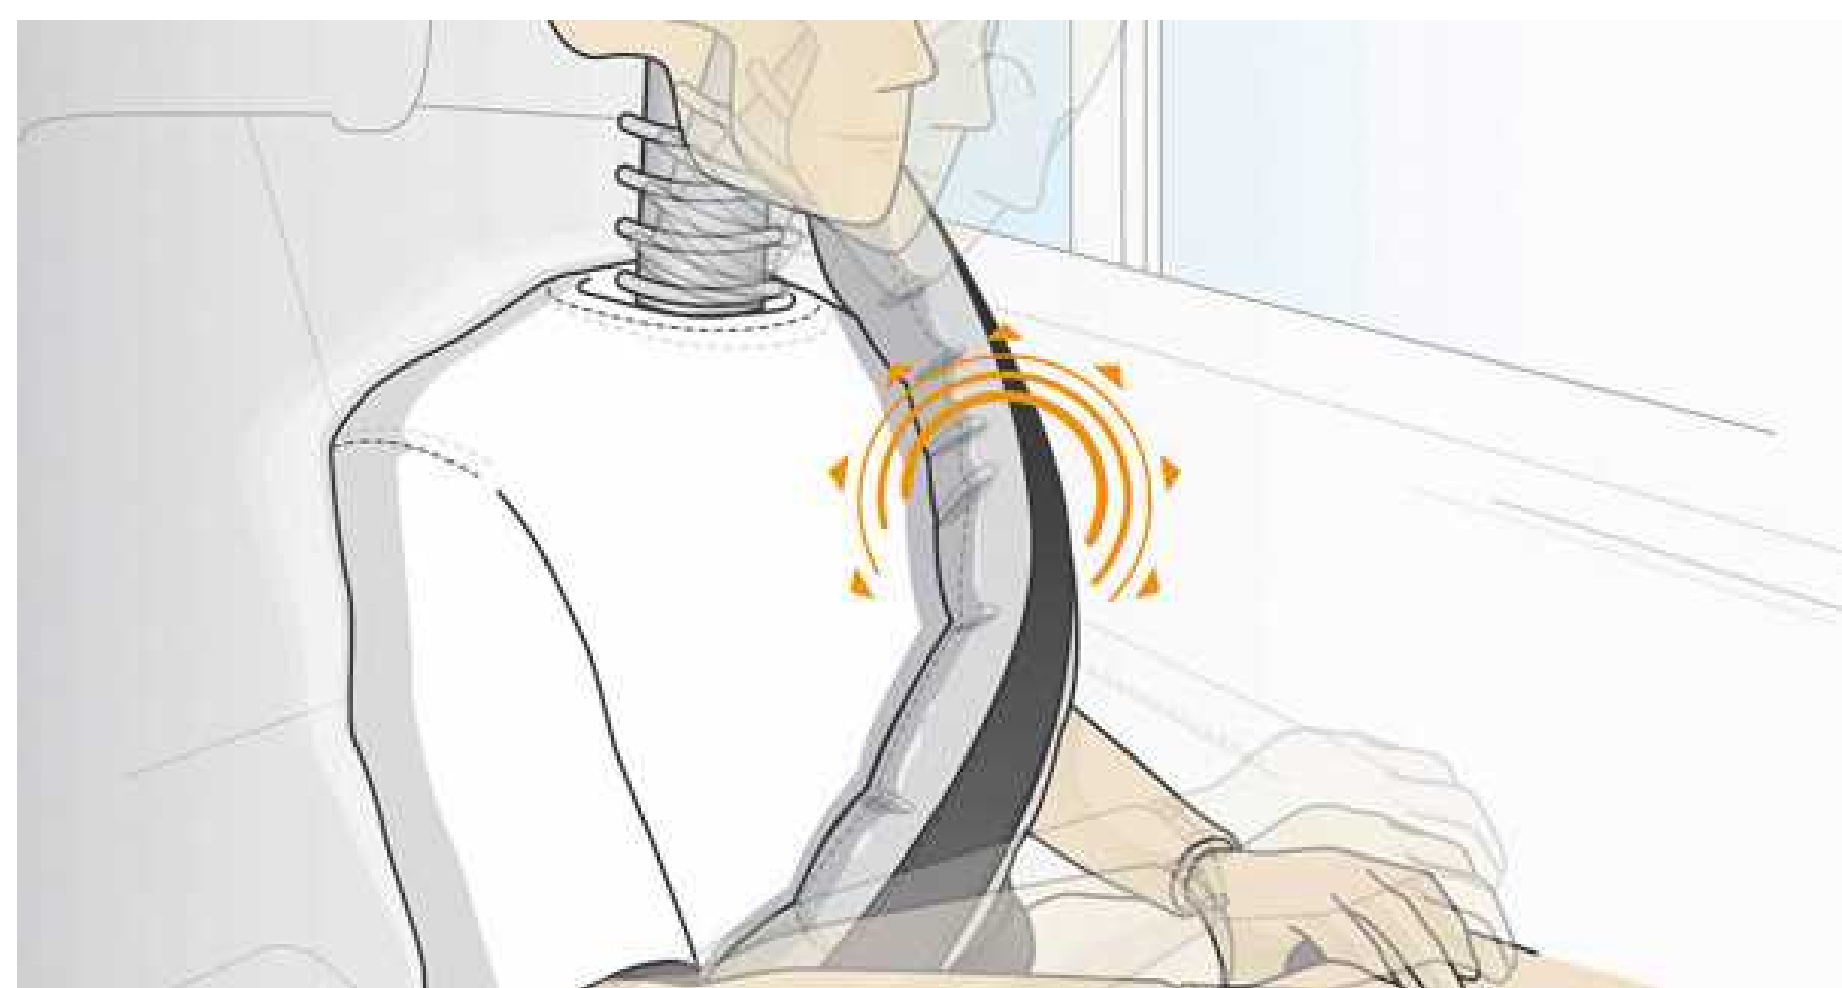

First-class comfort for your second-row passengers.

Standard on S 600 and Mercedes-AMG S 65

Power-adjustable rear seats

Power adjustment of each outboard seatback lets rear-seat passengers ride in first-class comfort. Power head restraints automatically rise into position when the outboard passengers fasten their seat belts, enhancing safety as well.

Rear seat-belt air bags

Innovative air bags are discreetly integrated with the shoulder-belt section of the rear 3-point seat belts. In a sufficiently severe impact, the seat belt's Emergency Tensioning Device and active buckle help remove slack from the belt. Milliseconds later, the inflation of the air bag expands the surface area of the belt to help distribute the forces of impact over a larger area, potentially reducing injuries.

Climate Comfort rear seats

By gently circulating air through perforations in the seat and backrest, Climate Comfort rear seats help keep you cooler and your clothes drier during warmer months. Three levels of heating and cooling ventilation are offered. On cold or damp days, using the ventilation and heating features together can circulate the seat heating more quickly to help keep you warm and dry. Rapid seat heating is also included.

Rear THERMOTRONIC automatic climate control

Bringing the total of climate zones to four, offers personalized comfort to the front and rear cabins. In addition to fully automatic or manual controls, the system includes sun and humidity sensors, a dust/pollen filter and an activated charcoal filter. The system also detects seat-belt usage and focuses first on areas of the cabin where occupants are seated.

Premium Rear Seating Package cont.

First-class comfort for your second-row passengers.

Standard on S 600 and Mercedes-AMG S 65

Chauffeur Package for rear cabin

Rear-cabin controls for the right-front seat allow it to be moved an additional 77 mm forward when unoccupied, while its seatback can be tilted forward, expanding the roominess of the rear cabin.

PRE-SAFE Rear Package

To facilitate seat-belt fastening, motorized buckles automatically rise and illuminate when an outboard rear passenger is seated, then retract to their normal position once the belt is fastened. In a sufficiently severe impact, the buckles can also further retract, to help reduce seat belt slack and better secure the occupant, especially beneficial if the seatback is reclined.

Air Balance Package

A thoughtful group of innovations to help cleanse the cabin air and provide the soothing benefits of aromatherapy.

Standard on S 600 and Mercedes-AMG S 65

Cabin-air purification system

Dual activated charcoal filters team with an ionizer that uses an electrical charge to create the same fresh-air sensation you experience after a summer storm. Airborne impurities and odours are virtually eliminated from the cabin to provide air quality that's more enjoyable and healthier, especially for those with asthma or allergies.

Cabin fragrance system

Featuring an elegant, LED-backlit vial in the glove box and its own ductwork, a new fragrance atomizer offers a new dimension of cabin ambience. Any of a variety of distinctive yet subtle aromas is gently atomized at periodic intervals into the cabin, yet won't linger on cabin surfaces or clothing. The vial is easily replaced when you'd like to change scents or you may fill it with your own favorite fragrance.

Intelligent Drive Package

The groundbreaking systems of Intelligent Drive collaborate for added security and convenience in traffic and on the open highway.

Standard on S 600 and Mercedes-AMG S 65

Active Blind Spot Assist

At speeds above 30 km/h, radar technology helps sense when a vehicle enters the blind-spot area on either side of you, and alerts you by illuminating an icon in the appropriate side mirror. A warning tone sounds if you activate a turn signal while a vehicle is detected. And if you begin to change lanes, advanced active technology can help guide the car back.

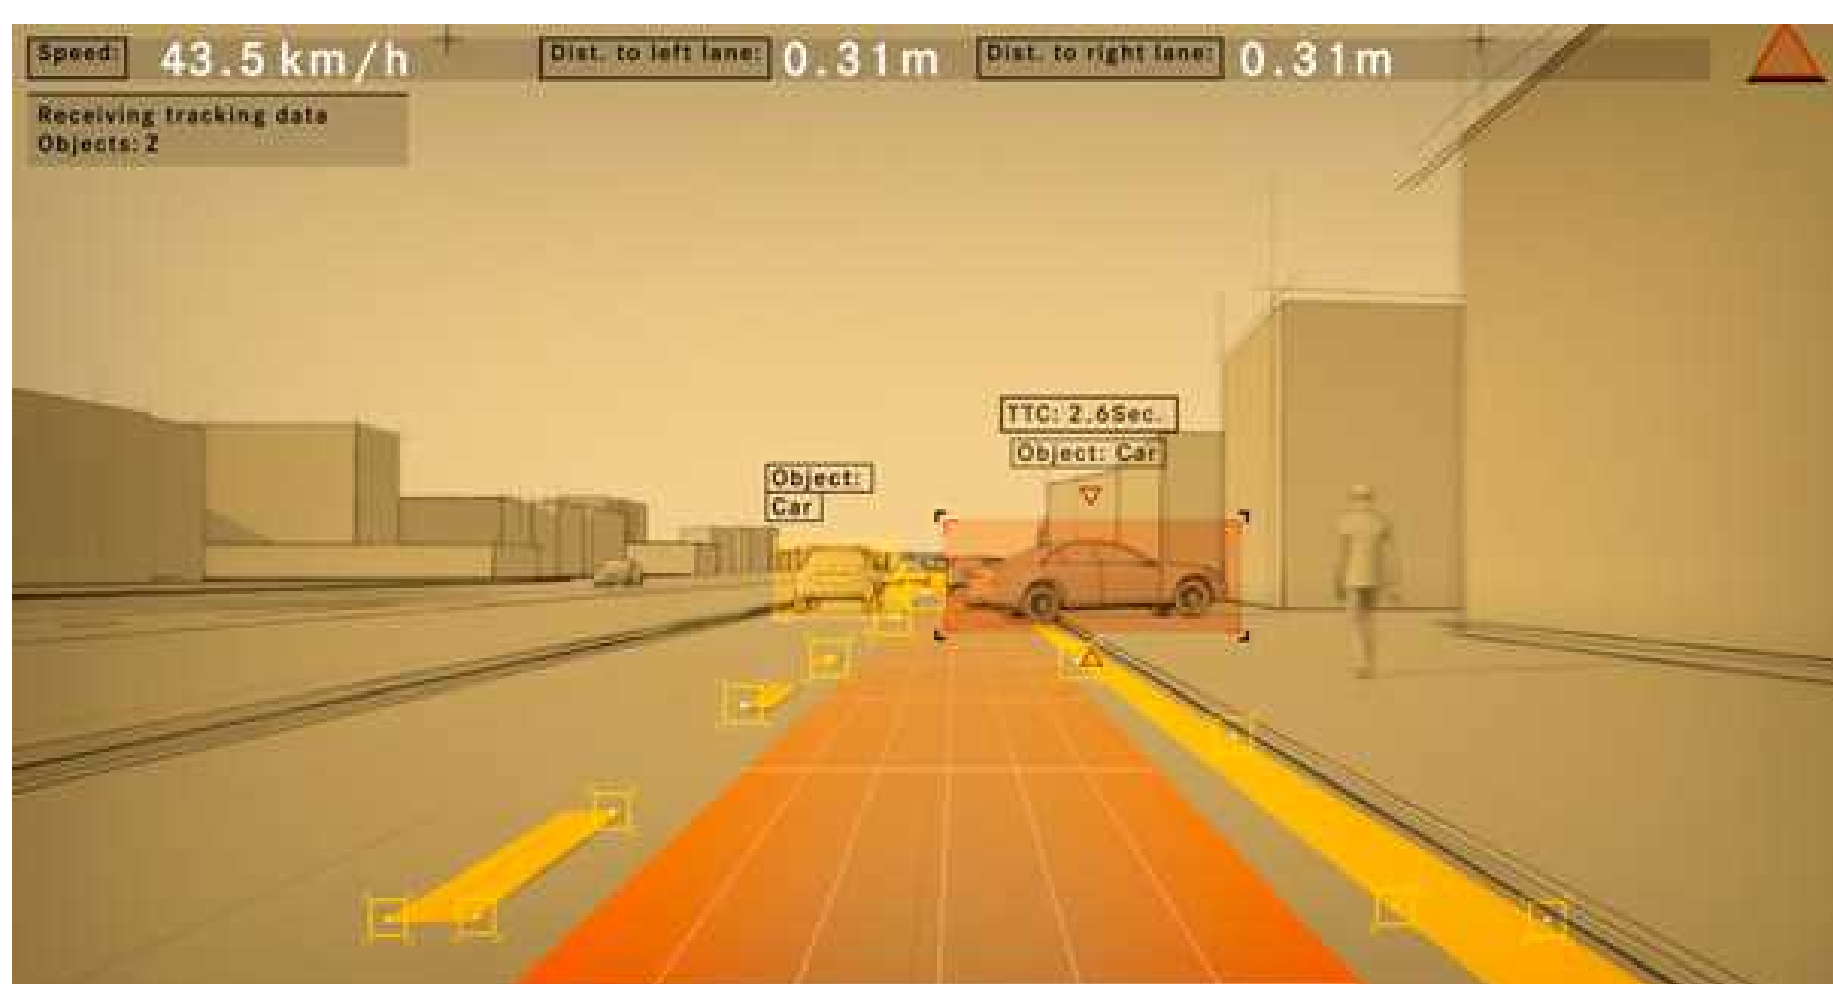

Active Lane Keeping Assist

The stereo-multipurpose camera monitors ordinary road markings to help detect unintended drifting off-course, and alerts you by vibrating the steering wheel. If you continue to drift, it can selectively brake individual wheels to help guide the car back into its lane. New enhancements help it to further detect and alert the driver to overtaking vehicles, vehicles you would need to overtake if you change lanes, and even oncoming traffic in the adjacent lane.

DISTRONIC PLUS with Steering Assist

This radar-based cruise control adapts your set speed to the flow of traffic ahead, automatically slowing until your path is clear again. If the vehicle ahead slows to a stop, DISTRONIC PLUS can brake your car to a full halt, then automatically resume when traffic starts moving. An advanced Steering Assist feature helps the driver keep the vehicle centred in its lane while cruising on straight roads or in gentle curves.

BAS[®] PLUS with Cross-Traffic Assist

A stereo-multipurpose camera and radar sensors scan the road ahead at driving speeds up to approximately 72 km/h, to help detect a potential collision with vehicles approaching from either side of an intersection ahead, or with pedestrians in the car's path. When the driver responds to the system's alert by braking, Brake Assist PLUS precisely applies the maximum brake force required to help prevent such an accident.

Intelligent Drive Package cont.

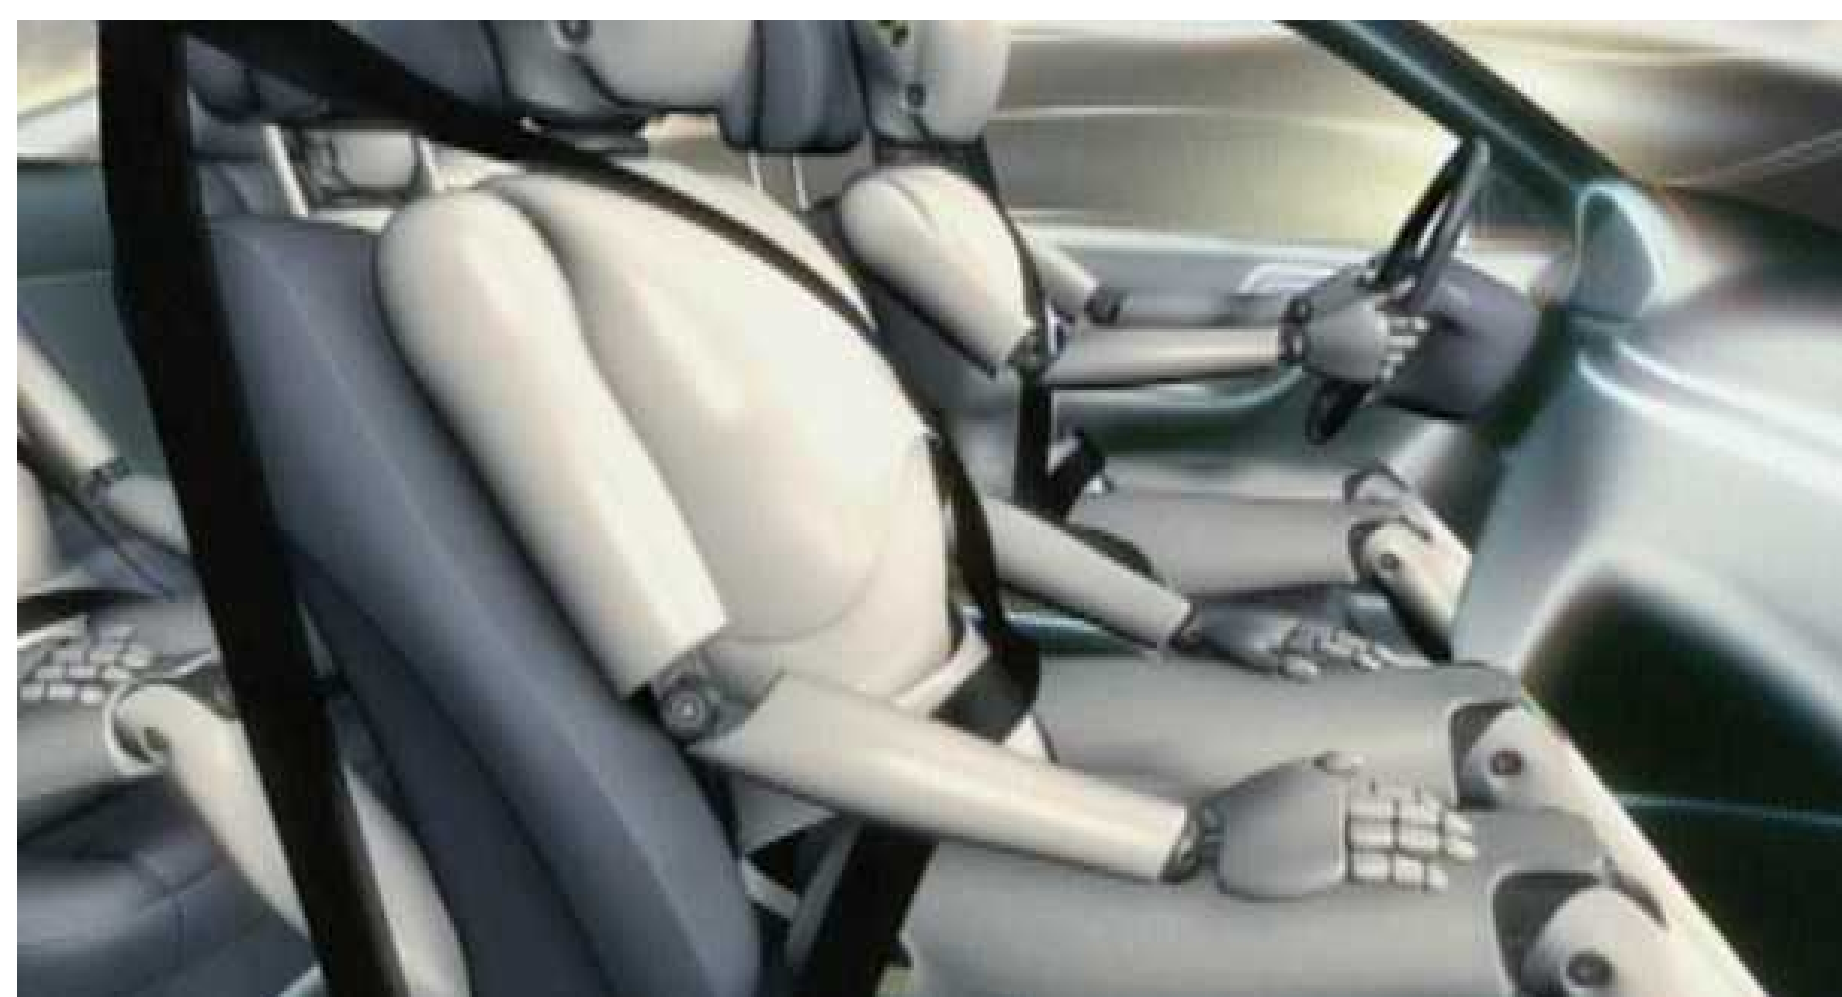

The groundbreaking systems of Intelligent Drive collaborate for added security and convenience in traffic and on the open highway.

Standard on S 600 and Mercedes-AMG S 65

PRE-SAFE Brake with Pedestrian Detection

Even when you're not using the cruise control functions of DISTRONIC PLUS, PRE-SAFE Brake can help detect an impending collision and automatically apply up to 100% braking force to help reduce the severity of impact. At speeds of up to approximately 35 mph 72 km/h, new Pedestrian Detection can help detect if pedestrians have entered in your path and automatically apply the brakes.

PRE-SAFE PLUS

An enhancement to the groundbreaking PRE-SAFE system helps protect the occupants in a rear-end collision. A radar sensor in the rear bumper helps detect an impending impact, engaging the features of PRE-SAFE to better prepare the front-seat occupants and their restraint systems. It can also increase brake pressure, to help reduce peak loads on all occupants as well as the risk of a secondary collision.

Executive Rear Seating Package

Twin rear seats with a centre console for an experience beyond first class.

Available on S 600 and Mercedes-AMG S 65

Dual power rear seats

True first-class comfort worthy of a private jet comes in the form of twin power rear seats, divided by a wood-trimmed console with multiple compartments. The right seat also includes a power calf rest and power footrest.

Folding tables for rear seats

Twin folding tables, elegantly edged in aluminum, rise from the console so you can work in comfort on the go, or stow away when not desired.

Executive right rear seat

Further enhancing the luxury of the spacious rear cabin, an executive right-rear seat power-reclines to 43 degrees, while a power calf rest can be extended for added leg support. Rear-cabin controls for the right-front seat allow it to be moved an additional 77 mm forward when unoccupied, while its seatback can be tilted forward, expanding the roominess of the rear cabin.

Standalone Options

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Head-Up Display

Standard on S 600, Mercedes-AMG S 63 4MATIC and Mercedes-AMG S 65

A 21x7-cm virtual image appears to “float” several feet in front of the windshield. The high-resolution colour readout places useful information in the driver's natural field of vision, with minimal “eyes off the road.” The display adapts automatically to ambient light, and can show navigation instructions, driving speed and cruise-control settings. Its height-adjustable position is stored in the seat memory.

MAGIC SKY CONTROL

Available on all models except S 400 4MATIC and S 550 4MATIC SWB Sedans

A Mercedes-Benz exclusive, this innovative evolution of the Panorama roof concept alters the transparency of its glass panels when an electrical current is applied. At its darkened setting, the thermal energy entering the cabin is less than that of a household lightbulb. And even in its transparent mode, MAGIC SKY CONTROL effectively blocks UV and infrared rays, helps keep the cabin cooler.

Heated windshield

Standard on S 600, Mercedes-AMG S 63 4MATIC and Mercedes-AMG S 65

Electric heating of the windshield glass allows it to begin clearing frost and fog as soon as you start the vehicle, even on the coldest day. There's no need to wait for the engine to warm up the standard defroster in the climate control system.

Night View Assist PLUS

Standard on S 600 and Mercedes-AMG S 65

In darkness, Night View Assist PLUS projects invisible infrared beams and reads them with a special camera. Combined with thermal imaging, the system can display a clearer, supplemental real-time view of the road ahead on the large screen in the dash, directly in front of the driver. Its advanced technology can also help identify and point out pedestrians and animals along a dark roadway, and help alert pedestrians with a focused flash of the LED headlamps in their direction.

Standalone Options cont.

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AMG Performance steering wheel

Available only on AMG models

In addition to its pronounced contouring, thick padding and Nappa leather-wrapped rim, the AMG performance steering wheel incorporates racing-inspired DINAMICA side grips.

Wood/leather sport steering wheel

Available only on AMG models

With a flat-bottom design and hand-polished wood accents, this 3-spoke sport steering wheel offers an ideal pairing of classic style and ultramodern control.

AMG exterior carbon fibre trim

Available only on AMG models

Born and bred on the racetrack, carbon fibre highlights the front apron cross-strut, the side-sill inserts and the lower diffuser in the rear valance. Carbon fibre side mirror covers complete the stunning effect.

Night Package

Available only on AMG models

Take your Mercedes-AMG S-Class to the dark side with this suite of Gloss Black exterior elements. The front-apron cross-strut, side-sill inserts, side mirrors and lower rear diffuser are all rendered in this dramatically contrasting finish.

Standalone Options cont.

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

Carbon fibre engine compartment cover

Available only on AMG models

An engine cover crafted with genuine carbon fibre expresses the rich racing heritage of the handcrafted Mercedes-AMG power plant.

AMG Carbon Ceramic Brake System

Available only on Mercedes-AMG S 65

The AMG ceramic high-performance composite brake system offers race-track braking performance through extremely short braking distances, precise pressure point and very high fade resistance even in extreme operation conditions.

Rear Seat Entertainment system

Standard on S 600 and Mercedes-AMG S 65

Flat screens in the front head restraints offer first-rate entertainment to the second row. Multiple input sources let passengers enjoy DVDs and video games together or independently with two pairs of wireless headsets and dual wireless remotes. Auxiliary inputs on the monitors and the rear-cabin DVD player connect portable gaming devices, cameras and more. And audio can play over the vehicle's sound system or discreetly via the headsets.

Burmester® High-End 3D Surround Sound system

Standard on S 600 and Mercedes-AMG S 65 / Reduces trunk space / Please see your dealer

Engineered to be the pinnacle of mobile high-end audio, the Burmester 3D system combines innovations in automotive audio with their legendary quality. A 1,540-watt amp combines analog and digital signals to deliver the most natural sound spectrum in any musical genre. A total of 24 speakers include a trunk-mounted subwoofer with its own 400-watt amp, innovative ceiling-mounted surround speakers and a pair of rotating, illuminated tweeters. Adjustments include four preset listening modes.

Standalone Options cont.

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

SPLITVIEW front-seat entertainment system

An exclusive breakthrough in video technology allows the central high-resolution in-dash widescreen to show two different displays to the driver and front passenger. So while the driver continues to enjoy all the functionality of the standard COMAND system, including audio, navigation and easy control of vehicle settings, the passenger can watch a DVD movie using the standard in-dash player, wireless remote and wireless headphones.

20" AMG multi-spoke forged-alloy wheels

Available only on S 400 4MATIC and S 550 models

Massive in size yet light in weight, the multispoke design of these 20" AMG wheels offers the high-tech look befitting the precisely tuned performance of the S-Class. Fitted with high-performance runflat tires, their sporty handling is an ideal complement to the car's highly capable suspension.

20" AMG triple 5-spoke wheels

Available only on Mercedes-AMG S 63 4MATIC

Substantial in size and style yet light in weight, these 20-inch AMG wheels feature five thin, machine-finished spokes with contrasting Titanium Silver detailing that gives them a triple-spoke effect. They're fitted with low-profile high-performance tires.

20" AMG 10-spoke forged-alloy wheels in Matte Black

Available only on Mercedes-AMG S 63 4MATIC and Mercedes-AMG S 65

Lightness meets darkness in racing-derived forged-alloy wheels with Matte Black spokes and centres, encircled by a pencil-thin polished outer rim. Concealed lugs further elevate their clean design. They're wrapped in low-profile high-performance tires.

Standalone Options cont.

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AMG 20" multi-spoke wheels

Available only on Mercedes-AMG S 65

Ultralight weight meets abundant size, style and substance in these 20" AMG forged-alloy wheels. Micro-thin spokes with a brilliant polished finish form subtly directional vanes, the ideal complement to the body detailing of the Mercedes-AMG S 65 and an eye-catching frame to the massive brakes. They're staggered in width and feature concealed lugs.

Rear Seat Comfort Package

Standard on S 600 and Mercedes-AMG S 65

Drive-Dynamic multicontour rear seats feature adjustable side, lumbar and shoulder supports for custom-tailored seating comfort. Six soothing and rejuvenating massage modes include two that combine massage and heat for a “hot stone” effect worthy of a high-end spa. Active side bolsters can automatically increase lateral support when cornering – or even in the event of a potential accident. Rapid seat heating is also included.

designo Brown Sunburst Myrtle wood trim

Available on all models

Rich in colour and captivating in its swirled grain, polished Sunburst Myrtle wood is handcrafted by the artisans who make *designo* the finest expression of Mercedes-Benz craftsmanship.

Burl Walnut wood trim

Available on all models.

Hand-polished Burl Walnut wood, prized for its rich colour and distinctive grain patterns, graces the console, dash and doors, lending the ultramodern cockpit a further air of timeless refinement.

Standalone Options cont.

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

designo Metalized Ash wood trim

Available on all models

One of the most striking trim choices ever offered on an S-Class, the light colour and flowing grain patterns of Ash wood are stained using a metal-infused process that results in an exotic silver tone. Crafted by the expert hands of *designo* artisans, it's a celebration of old-world workmanship and modern art.

Anthracite Poplar wood trim

Standard on all models.

Deep, dramatic and the ideal complement to the intricate aluminum accents of the S-Class cabin, Anthracite Poplar wood is polished by hand to a high gloss that celebrates its unique grain.

designo Black Piano Lacquer "Flowing Lines" Trim

Available on all models

Impossibly thin and precise blonde "pinstripes" accent the infinitely deep Black Piano Lacquer wood throughout the cabin in this unique, exclusive embellishment. The "Flowing Lines" celebrate the multidimensional, organic design that sculpts the cabin's various components into an extraordinary cohesive environment.

designo Piano Black Lacquer Trim

Available on all models

Crafted using the same technique as is used to create the finest orchestral instruments, Black Piano Lacquer lends the hand-finished wood trim of the S-Class an elegant, extravagant excitement.

Standalone Options cont.

Make your S-Class your own by choosing from a selection of innovative, thoughtfully designed and thoroughly engineered options.

AMG Carbon Fibre/Piano Black Lacquer wood trim

Available on Mercedes-AMG S 63 4MATIC and Mercedes-AMG S 65

Genuine, racing-derived carbon fibre is complemented by the unique depth and gloss of wood trim whose Piano Black Lacquer finish comes from the same process used to create the finest concert instruments.

Refrigerated rear compartment

Available on S 600 and Mercedes-AMG S 65 / Reduces trunk space / See your dealer

Keep your favorite beverages perfectly chilled for enjoyment with this compact refrigerated compartment concealed between the rear seatbacks.

Illuminated door sill panels

Available on S 400 4MATIC and S 550 models / Standard on all other models

Mercedes-Benz logos illuminate in a soft white glow as you open the front door to welcome you into the cabin or ease your exit.

Mercedes-Benz Genuine Accessories

Exclusively engineered to fit your car and your life, they're the best way to make your S-Class unmistakably yours while keeping it genuinely Mercedes-Benz.

Car Care Products

Keep the interior and exterior of your vehicle looking their best with our exclusive, specially formulated interior and exterior car care kits.

Navigation Update

Owning a navigation system is one thing. Keeping it up to date is another. Mercedes-Benz map update software keeps your maps and Points of Interest current with the latest information.

Roof Accessories

Roof carrier bars allow for a variety of add-on accessories to be mounted to your vehicle. Choose from a ski/snowboard holder, roof box or bike rack. Carrier bars and add-ons sold separately.

Style and Travel Series

These elements attach behind the front head-restraint posts, and are simple to fit and remove. The modular system centres on a base support that can be combined with the product of your choice – universal hook, coat hanger or folding table.

Mercedes-Benz Genuine Accessories cont.

Exclusively engineered to fit your car and your life, they're the best way to make your S-Class unmistakably yours while keeping it genuinely Mercedes-Benz.

Cargo Area Tray

Protect your cargo-area carpeting with this durable, easy to clean plastic insert with 2" sides. Custom-formed to fit the cargo area of your vehicle.

Wheel Upgrades

Choose from a wide selection of stunning wheels to accentuate your style.

Winter Wheel & Tire Packages

Winter wheels and tires can play a major role in your safety and your vehicle's handling and performance on icy, snow-covered roads. Winter tires offer increased traction in harsh conditions and can reduce stopping distance by up to three car lengths.
