Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Multi-gesture touchpad control

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Personalisation

- Turn the GLB into your very own Mercedes-Benz by personalising driving modes, radio stations and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer

¹LINGUATRONIC off-board functions are currently only available for three years

Safety and Assistance Systems

Driving Assistance package

- Active Blind Spot Assist can warn the driver of vehicles in the blind spot during a lane change and can help to avoid a collision by means of one-sided braking intervention
- Active Braking Assist with congestion emergency braking function and cross-traffic function can help to avoid accidents with vehicles ahead, crossing traffic or pedestrians, and/or mitigate their consequences
- Active Distance Assist DISTRONIC helps the driver to maintain a safe distance to the vehicle in front and so relieves strain on the driver, especially on long journeys or in a traffic jam
- Active Steering Assist targeted steering intervention to prevent unintentional drifting out of lane
- Evasive Steering Assist can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system
- Exit warning function alerts occupants to passing traffic or pedestrians when leaving the vehicle
- Extended restart function on motorways
- PRE-SAFE® PLUS: when a rear-end collision threatens, PRE-SAFE® PLUS can initiate preventive measures, including warning following traffic and locking the brakes on standstill
- Route-based speed adjustment with end of tailback function: adaption of speed before curves, roundabouts and junctions

Traffic Sign Assist is able to recognise and display speed limits, no-entry and no-overtaking signs, and highlight the end of such restrictions

¹The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK ^{*}Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ²All engines are RDE (Real Driving Emissions) Step 2 Certified (Euro 6d). This results in a lower VED and BiK rate as these engines will not be subject to the diesel surcharge. A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. [Accessories Configurator](#)[Book a test drive](#)[Find your GLB](#)[Find a Retailer](#)

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your GLB.

Concertina load sill protector

Protects the rear of the car from scratches when you're loading the vehicle – and prevents dirt from the car from getting onto your clothes. Practical design – can be connected to shallow boot tub or reversible mat. (A2536932000)

Picnic hamper

The content of the hamper is set out for two people: two four-part cutlery sets, two porcelain plates, coffee cups, juice glasses, a salt and a pepper shaker, two serviettes and a 140 x 140 cm table cloth. Dimensions: approx. 50 x 34 x 31 cm. (B66041562)

Reversible mat

The reversible mat with load sill protector from Mercedes-Benz protects your prized paintwork when loading and unloading, and helps prevent the load from sliding around. 100 % hardwearing polyester, double-sided for twice the use, rubberised, non-slip side and soft velour side. (A2476841600)

Shallow boot tub

For everyday transport. The easy-care boot tub is even suitable for shopping and liquids. The shape of the tub, with its slightly raised edge, is optimally tailored to the load area. Very robust – made from impact-resistant, non-split polypropylene. Structured surface prevents the load from sliding around and makes it easier to secure the optionally available stowage crate in place. (A2478140400)

Cool box

Whether you're taking cold drinks, a picnic or baby food with you, the multifunctional coolbox cools or warms according to your needs, making it the perfect accessory for any outing. Thanks to the extra-effective insulation, it cools to as low as -2 °C. It is ideal for use in any Mercedes-Benz and has a capacity of 24 litres. The portable coolbox is a rigid box with a fabric cover, featuring zipped and open pockets. The rigid plastic liner inside is easy to clean. The carrying strap can be used to secure the coolbox in place in the vehicle. (A0008204206)

Mount for tablet PC

The ergonomic, crashproof Docking Station introduces the iPad® and all of its familiar functions to your Mercedes-Benz. All connections, e.g. for your headphones or charging cable, remain accessible. The mount is fitted to the head restraint and can be tilted and rotated around 90°. Available for iPad®, iPad® 2, iPad® 3 and iPad® 4. (A0008272200)

[Accessories Configurator](#)[Book a test drive](#)[Find your GLB](#)[Find a Retailer](#)**BABY-SAFE plus II child seat, with ISOFIX**

Suitable for children up to around 15 months of age (up to 13 kg), the seat features automatic child seat recognition and standard automatic airbag shutoff for use on the front passenger seat with airbag. The ISOFIX attachment system comes as standard; but can be used with vehicle's three-point seat belt as an alternative. (A0009701302)

**KIDFIX XP child seat, with ISOFIX**

Suitable for children between the ages of 3.5–12 years (15–36 kg) and securely attached to the vehicle by means of ISOFIX or the vehicle seat belt. The seat's strengths include its exemplary side impact protection, courtesy of the energy-absorbing XP-PAD, which reduces impact in the event of a collision. Large, padded side wings also enhance side impact protection. Adjustable belt guides and headrest allow the seat to grow with your child. (A0009702302)

**Mercedes-Benz roof box 450**

Roof box allows transport of winter and summer leisure accessories, including skis, snowboards, diving equipment, etc. Easy to slide into place and secure. Available in different colour variants. UV-resistant, dye-permeated material. Impact-resistant, sturdy, durable, recyclable, spray-protected. Opens on both sides. Single lock system with three locking mechanisms on each side. Gas-filled struts for easy opening and closing of lid. Maximum load capacity of 75 kg. Unladen weight 16 kg. (A0008400000)

**DUO plus child seat, with ISOFIX**

Suitable for children between the ages of 9 months to 4 years (9 to 18 kg), the seat offers optimum protection in the event of an accident. Sitting, reclining and sleeping positions are adjustable with one simple manoeuvre. A system that grows along with your child: the harness height is easy to adjust in seven stages – with central, one-pull belt length adjustment. (A0009701702)

**Rear-mounted bicycle rack for trailer coupling, folding**

Rear bicycle rack for trailer hitch. For up to three cycles. Suitable for e-bike. Lockable. Removable cycle holders with quick-release fasteners can be positioned to suit requirements. With space-saving folding mechanism. Supplied with bag. (A0008901800)

**Bicycle carrier**

Suitable for different cycle types, e.g. road bikes or trekking bikes. Fully pre-assembled and ready to use. Extremely lightweight as a result of aluminium/steel construction: just 2.5 kg. New and ingeniously convenient: bicycles can be attached at ground level before the rack is fitted. Up to three bicycle racks can be fitted. Bungee cords ensure rack is also suitable for unusual cycle frames. (A0008900293)

**Basic carrier bars**

Aluminium carrier bars, precision-tailored to the body of your Mercedes-Benz – the perfect basis for a range of Mercedes-Benz transport accessories: ski and snowboard rack, bicycle rack or roof boxes. With integral tool for quick and easy fitting. Asymmetrical aerodynamic profile enhances ride comfort by significantly reducing wind noise. (A2478903100)

Services and insurance

Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your GLB, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.

With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation. It also covers the cost of all recommended service items including brake fluid, spark plugs, air filters, fuel filters and screen wash.

You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects¹ and up to 30 years warranty against perforation due to corrosion from the inside out.² What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.²

Motor Insurance

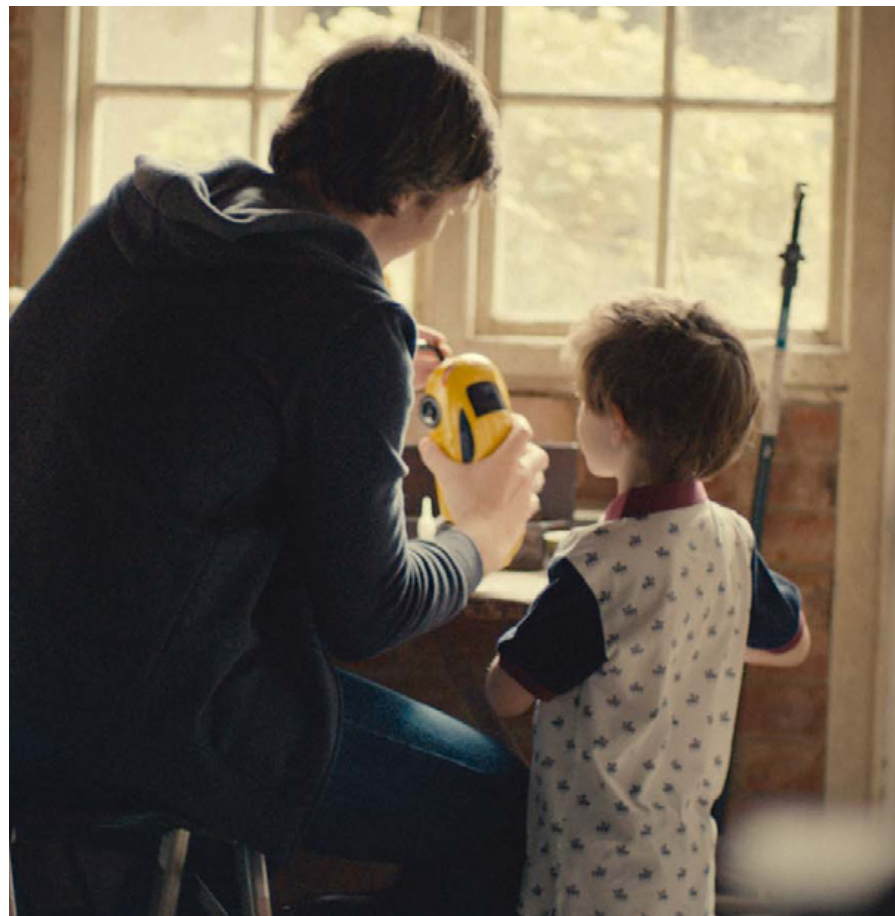

Superb cover comes as standard. When reviewed by an independent research company, Defaqto, Mercedes-Benz Motor Insurance received a five-star rating, the highest rating available. We design our Motor Insurance specifically for Mercedes-Benz drivers.
